Cycling the Great Divide Michael McCoy,2000 Turforslag fra Canadas gr nse via Montana Wyoming Colorado og New Mexico til gr nsen til Mexico **Heidi Across America** Heidi Beierle,2024-04-30 A memoir of homecoming Heidi Across America is a gritty story of how opening our hearts to others enables us to open our hearts to ourselves and love what we find there Finalist Chanticleer International Book Awards In the summer of 2010 Heidi Beierle had just finished her first year of graduate studies in community and regional planning and decided to pedal her bicycle solo from her home on the west

coast across rural America to the Preserving the Historic Road conference in Washington D C What started as a research trip turned into an intimately physical and psychological encounter with self and nationhood Heidi was 35 at the time and didn't love much about herself except her ability to endure grueling physical undertakings She viewed her journey as an opportunity to fix her failures and insufficiencies There were also some research questions she wanted to explore Why do people live in small towns and what do they like about it Did a bicyclist like herself bring economic benefit to the small towns she visited What could communities do to support or invite cyclists to stay in their towns What could cyclists do to support the communities Along the way she was surprised by the kindness of strangers and the emotional pinch of traveling through Wyoming where she grew up Her journey led her through the Plains and into the Ozarks where the heat climbed to agonizing temperatures and every pedal stroke in the heat felt one closer to death By the time she completed the trip Heidi discovered a newfound compassion for herself and a growing love for her country Strangers opened their hearts to her and in turn she opened her heart to herself And her questions began to change and mirror things many Americans are asking themselves today How can I be okay in my own skin What does it mean to be enough How do I satisfy my desire to travel without harming the planet What does it mean to love America For many young people it is a rite of passage to light out on an adventure to see the world and expose themselves to new experiences but we don't often talk about how Americans seeing America can open us to the diversity awe and wonder available right here in our nation Heidi Across America offers a journey to self love empathy consideration for others and respect for the spirit of place as pathways to find connection and home

A Hole in the Wind David Goodrich, 2017-06-06 An epic bicycle journey across the American hinterland that explores the challenges of climate change alongside a diverse array of American voices After a distinguished career in climate science as the Director of the UN Global Climate Observing System in Geneva David Goodrich returned home to the United States to find a nation and a people in denial Concerned that the American people are willfully deluded by the misinformation about climate that dominates media and politics David thought a little straight talk could set things right As they say in Animal House he decided that this calls for a stupid and futile gesture on someone's part and I'm just the guy to do it Starting on the beach in Delaware David rode his bike 4 200 miles to Oregon talking with the people he met on the ultimate road trip Along the way he learned a great deal about why climate is a complicated issue for many Americans and even more about the country we all share Climate change is the central environmental issue of our time But A Hole in the Wind is also about the people Dave met and the experiences he had along the way like the toddler's beauty pageant in Delaware the tornado in Missouri rust belt towns and their relationship with fracking and the mined out uranium ghost town in Wyoming As he rides David will discuss the climate with audiences varying from laboratories to diners to elementary schools Beautifully simple direct and honest A Hole in the Wind is a fresh refreshing ride through a difficult and controversial topic and a rich read that makes you glad to be alive
