What's Really Important, Introduction to Knowledge Management Todd Groff, Thomas Jones, 2012-06-25 This book introduces readers to a wide range of knowledge management KM tools, techniques, and terminology for enhancing innovation, communication, and dedication among individuals and workgroups. The focus is on real-world business examples using commonly available technologies. The book is set out in a clear and straightforward way with definitions highlighted, brief case studies included that illustrate key points, dialogue sections that probe for practical applications, and written exercises. Each chapter concludes with discussion questions, review questions, and a vocabulary review. An Online Instructor's Guide is available. *The Strengths Path Time Manager* Dale Cobb, 2017-02-27 This book is for anyone interested in delivering the Best Version of Themselves at work. People naturally manage their time well when they are working from their strengths. Most of the time management programs are designed to help learners muster the discipline to work from weakness. This program begins with your natural strengths and then integrates that philosophy through each piece of your life. This book is a terrific resource if you are setting goals that aren't authentic, selecting strategies that don't fit, struggling with procrastination, stuck in classic time management methods. **The Basecamp Manifesto** Terence C. Young, 2024-10-31 It is often said that it is lonely at the top. But this loneliness can be dangerous not only to the leader but also to the led. It turns out we hold our environments as we are held. If we are not held in a caring and daring fashion, it shows up in how we live and lead. *The Basecamp Manifesto* is a formative work on developing and sustaining leadership skills. Here Terence Young outlines the development of a changed narrative around leading organizations. Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak, Young has created a framework for leadership that relies on developing a basecamp of companions. Like the familiar basecamps of extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks, a leader's basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership. Young presents the gifts that current and future leaders should find in a secure base: greater clarity in the sense-making process, enhancement of agility in navigating dynamic situations, building endurance to face challenges, and fostering generativity for greater productivity and innovation in one's life quest. *The Basecamp Manifesto* is written for leaders of all organizations, whether for profit or nonprofit. Whether a business leader, an educational leader, a political leader, a religious leader, or other society-facing leader, all leaders face particular and specific challenges in leadership. How do I lead and navigate with those in my circle through a world of increasing volatility, uncertainty, complexity, and ambiguity? For the sake of those you lead, Young

s groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered
