Divergent Paths Marc Egnal, 1996 Why are some countries without an apparent abundance of natural resources such as Japan economic success stories while other languish in the doldrums of slow growth In this comprehensive look at North American economic history Marc Egnal argues that culture and institutions play an integral role in determining economic outcome He focuses his examination on the eight colonies of the North five colonies of the South which together made up the original thirteen states and French Canada Using census data diaries travelers accounts and current scholarship Egnal systematically explores how institutions such as slavery in the South and the seigneurial system in French Canada and cultural arenas such as religion literacy entrepreneurial spirit and intellectual activity influenced development He seeks to answer why three societies with similar standards of living in 1750 became so dissimilar in development By the mid nineteenth century the northern states had surged ahead in growth and this gap continued to widen into the twentieth century Egnal argues that culture and institutions allowed this growth in the North not resources or government policies Both the South and French Canada stressed hierarchy and social order more than the drive for wealth Rarely have such parallels been drawn between these two societies Complete numerous helpful appendices figures tables and maps *Divergent Paths* is a rich source of unique perspectives on economic development with strong implications for emerging societies

Divergent Paths : How Culture and Institutions Have Shaped North American Growth Marc Egnal Professor of History York University, 1996-06-11 Why are some countries without an apparent abundance of natural resources such as Japan economic success stories while other languish in the doldrums of slow growth In this comprehensive look at North American economic history Marc Egnal argues that culture and institutions play an integral role in determining economic outcome He focuses his examination on the eight colonies of the North five colonies of the South which together made up the original thirteen states and French Canada Using census data diaries travelers accounts and current scholarship Egnal systematically explores how institutions such as slavery in the South and the seigneurial system in French Canada and cultural arenas such as religion literacy entrepreneurial spirit and intellectual

activity influenced development He seeks to answer why three societies with similar standards of living in 1750 became so dissimilar in development By the mid nineteenth century the northern states had surged ahead in growth and this gap continued to widen into the twentieth century Egnal argues that culture and institutions allowed this growth in the North not resources or government policies Both the South and French Canada stressed hierarchy and social order more than the drive for wealth Rarely have such parallels been drawn between these two societies Complete numerous helpful appendices figures tables and maps Divergent Paths is a rich source of unique perspectives on economic development with strong implications for emerging societies

In Search of Canada Stephen Richards Graubard, 1989-01-01 In Search of Canada Brewed in the North Matthew J. Bellamy, 2019-10-10 For decades the name Labatt was synonymous with beer in Canada but no longer Brewed in the North traces the birth growth and demise of one of the nation's oldest and most successful breweries Opening a window into Canada's complicated relationship with beer Matthew Bellamy examines the strategic decisions taken by a long line of Labatt family members and professional managers from the 1840s when John Kinder Labatt entered the business of brewing in the Upper Canadian town of London to the globalization of the industry in the 1990s Spotlighting the challenges involved as Labatt executives adjusted to external shocks the advent of the railway Prohibition war the Great Depression new forms of competition and free trade Bellamy offers a case study of success and failure in business Through Labatt's lively history from 1847 to 1995 this book explores the wider spirit of Canadian capitalism the interplay between the state's moral economy and enterprise and the difficulties of creating popular beer brands in a country that is regionally linguistically and culturally diverse A comprehensive look at one of the industry's most iconic firms Brewed in the North sheds light on what it takes to succeed in the business of Canadian brewing

Tug of War Jocelyn Wills, 2017-09-04 Selling Earth observation satellites on their abilities to predict and limit adverse environmental change politicians business leaders the media and technology enthusiasts have spent sixty years arguing that space exploration can create a more peaceful prosperous world Capitalist states have also socialized the risk and privatized the profits of the commercial space industry by convincing taxpayers to fund surveillance technologies as necessary components of sovereignty freedom and democracy Jocelyn Wills's *Tug of War* reminds us that colonizing the cosmos has not only accelerated the arms race but also encouraged government contractors to compete for the military and commercial spoils of surveillance Although Canadians prefer to celebrate their role as purveyors of peaceful space applications Canada has played a pivotal part in the expansion of neoliberal policies and surveillance networks that now encircle the globe primarily as a political ally of the United States and component supplier for its military industrial complex Tracing the forty five year history of Canada's largest space company MacDonald Dettwiler and Associates MDA through the lens of surveillance studies and a trove of oral history transcripts government documents trade journals and other sources Wills places capitalism's imperial ambitions squarely at the centre of Canada US relations and the privatization of the Canadian political economy *Tug of War* confronts the mythic lure of

technological progress and the ways in which those who profess little interest in war rationalize their leap into military contracting by avoiding the moral and political implications of their work *CM*, 1988 **Mulroney** John Sawatsky, 1992

Democracy's Oxygen James P. Winter, 1997 Hard facts that illustrate the conspiracy between government and corporate media interests *Rising to Power* Dave Greber, 1987 *The Developers* James Lorimer, 1978-01-01 Based on detailed investigation of development in 14 Canadian cities supplemented by material from interviews financial reports newspaper files and trade publications *The Developers* offers a comprehensive picture of a complex industry Portraits of developers like Ottawa's Robert Campeau and Toronto's Bruce McLaughlin are coupled with stories of huge corporations such as Genstar and Cadillac Fairview Lorimer looks at each in turn explaining exactly how the developers are able to make enormous profits building the new corporate city *The Developers* is a revealing account of the men and the companies behind the amazing growth of Canadian cities since the Second World War **Global Economy** Collectif, 2014-06-09T00:00:00-04:00 The International Economic Forum of the Americas Conference of Montreal was first held 20 years ago with the beginning of a new economic globalization movement which gained momentum with among other things the creation of the World Trade Organization WTO and the integration of economic and financial management of the European Union the establishment of free trade between the United States Mexico and Canada and the advent of the involvement of the BRIC countries Brazil Russia India and China In light of these new developments a desire emerged to create an independent international forum in Montreal to identify and understand the impact of all these changes on the global economic system *The Global Economy The foundation for the Next Era of Growth* is a multi authored examination of the current business state of affairs compiled to mark the 20th anniversary of the Montreal Conference It will provide readers with access to valuable information to better understand the realities of this period of adjustment for the global economy giving everyone access to a new era of prosperity

The Reconquest Of Montreal Marc Levine, 2010-04-28 An examination of the nature of the linguistic transformation of Montreal and the role of public policy in promoting it *The Year in Review 1981* Sheilagh M. Dunn, 1982 *Memoirs* Brian Mulroney, 2011-07-27 Politics was always Brian Mulroney's real love As an undergraduate in Nova Scotia he amazed his friends by getting Prime Minister Diefenbaker on the phone and he rose fast in the Tory ranks in Quebec as a young Montreal lawyer He tried for the leadership of the party in 1976 losing to Joe Clark then returned to win a rematch in 1983 The next year he ran the most successful election campaign in Canadian history winning 211 seats and taking office in September 1984 His first term in office was a stormy one marked by the launch of the Meech Lake Accord and the Free Trade Agreement with the United States In 1988 however he was re-elected after a rollercoaster campaign and his second term in office was just as controversial featuring the Meech Lake and Charlottetown Accords still a source of bitter regret for him as opportunities missed This book falls into two main sections first his rise out of a working class family in Baie Comeau Second his immersion into the world of Ottawa politics in opposition and then in power The years in power are dealt with in

fascinating detail and we receive his candid accounts of backstage dealings with Trudeau Clark and other Canadian leaders and on the international scene with Reagan Thatcher Mitterrand Kohl Gorbachev Mandela Clinton and many more This big book has a huge cast of major players Brian Mulroney is determined to make this the best prime minister's memoirs this country has ever seen and a full time researcher has been helping him for three years This account of his career is colourful and forthright and a number of opponents will be sorry that they caught his attention The manuscript is full of personal touches and reflects the fact that he wrote it by hand reading it aloud for rhythm and impact Studded with entries from his private journal this book by a son brother husband and father is deeply personal and includes some surprisingly frank admissions The book establishes the scale of his achievements and reveals him as a man of great charm Memoirs will allow that little known Brian Mulroney to engage directly with the reader This book is full of surprises as we fall under the spell of a great storyteller

The Future of Newspapers Bob Franklin, 2013-09-13 The future of newspapers is hotly contested Pessimistic pundits predict their imminent demise while others envisage a new era of participatory journalism online with yet others advocating increased investment in quality journalism rather than free gifts and DVDs as the necessary cure for the current parlous state of newspapers Globally newspapers confront highly variable prospects reflecting their location in different market sectors countries and journalism cultures But despite this diversity they face similar challenges in responding to the increased competition from expansive radio and 24 hour television news channels the emergence of free Metro papers the delivery of news services on billboards pod casts and mobile telephony the development of online editions as well as the burgeoning of blogs citizen journalists and User Generated Content Newspapers revenue streams are also under attack as advertising increasingly migrates online This authoritative collection of research based essays by distinguished scholars and journalists from around the globe brings together a judicious mix of academic expertise and professional journalistic experience to analyse and report on the future of newspapers This book was published as special issues of Journalism Practice and Journalism Studies

The Handover Elaine Dewar, 2017-06-13 Until recently McClelland and Stewart had been known as The Canadian Publisher the country's longest lived and best independent press Its dynamic leader Jack McClelland worked with successive provincial and federal governments to help draft policies in the 1960s and 70s which ensured that Canadian stories would for the first time in the nation's history be told and published by Canadians How smart businessmen and even smarter lawyers danced through the raindrops of the laws put into place to protect Canadian cultural institutions from foreign ownership while cultural bureaucrats looked the other way and why we should care It is the story not just of the demise of the country's best independent publisher it is about the threats internal and otherwise facing Canadian culture The Handover is more than just a CanLit How Done It it is essential reading for anyone interested in the telling of Canadian stories *Canadiana*, 1989
