Tobias Adrian,2018-08-01 The evolution of risk management has resulted from the interplay of financial crises risk

management practices and regulatory actions In the 1970s research lay the intellectual foundations for the risk management practices that were systematically implemented in the 1980s as bond trading revolutionized Wall Street Quants developed dynamic hedging Value at Risk and credit risk models based on the insights of financial economics In parallel the Basel I framework created a level playing field among banks across countries Following the 1987 stock market crash the near failure of Salomon Brothers and the failure of Drexel Burnham Lambert in 1996 the Basel Committee on Banking Supervision published the Market Risk Amendment to the Basel I Capital Accord the amendment went into effect in 1998 It led to a migration of bank risk management practices toward market risk regulations The framework was further developed in the Basel II Accord which however from the very beginning was labeled as being procyclical due to the reliance of capital requirements on contemporaneous volatility estimates Indeed the failure to measure and manage risk adequately can be viewed as a key contributor to the 2008 global financial crisis Subsequent innovations in risk management practices have been dominated by regulatory innovations including capital and liquidity stress testing macroprudential surcharges resolution regimes and countercyclical capital requirements

Republic of Moldova International Monetary Fund. Monetary and Capital Markets Department, 2016-02-29 The National Bank of Moldova NBM has made significant progress in reinforcing its prudential and supervisory framework Two medium term strategies have been designed in succession since 2008 to set a forward looking approach for supervision The most recent one spanning four years 2013 17 aims to ensure a higher level of efficiency transparency and performance of the NBM by bringing the best international practices particularly in the area of corporate governance The country is also in the process of transitioning from Basel I to Basel II In the context of an Association Agreement to be signed with the European Union EU 2 the NBM plans to implement the standard risk weighting model of Basel II as well as other elements of Basel III The objective is to enhance the NBM s institutional capacity with the view to foster the banks prudential regulatory framework The association process will also enable NBM to gradually implement the EU Capital Requirements Regulation and Directive CRR CRD

Bank Regulation

Anna-Karin Stockenstr  nd, Fredrik Nilsson, 2017-01-20 *Bank Regulation Effects on Strategy Financial Accounting and Management Control* discusses and problematizes how regulation is affecting bank strategies as well as their financial accounting and management control systems Following a period of bank de regulation the new millennium brought a drastic change with many new regulations Some of these are the result of the financial crisis of 2008 2009 Other regulations such as the introduction in 2005 of International Financial Reporting Standards IFRS for quoted companies in the EU can be related to the introduction of a new global accounting regime It is evident from annual reports of banks that the number of new regulations in recent years is high and that they cover many different functional areas The objectives of these regulations are also ambitious to improve governance and control contributing to a high level of financial stability for banks These objectives are obviously of great concern for an industry that directly and indirectly affects the financial situation not only of individuals and organizations but also nation states Considering the importance of banks in society it is of little surprise that the attention of both scholars and practitioners has been directed towards how banks comply with new regulations and if the intended objectives of the regulations are met This book will be of great value to all those interested in financial stability matters practitioners policy makers students academics as well as to accounting and finance scholars
