Sacred Canopy Elements Of A Sociological Theory Of Religion:

The Sacred Canopy Peter L. Berger, 1990-09-01 An absorbing and original examination that brilliantly argues that religion is a product of the society from which it springs featuring illustrations drawn from a variety of primitive ancient and contemporary religions In this book Berger that religion is the sacred canopy which every human society builds over its world to give it meaning expanding on theories of knowledge that he first explored with Thomas Luckmann in *The Social Construction of Reality* *The sacred canopy : elements of a sociological theory of religion* Peter L. Berger, 1969 The Sacred Canopy Peter L. Berger, 1969 *The Sacred Canopy; Elements of a Sociological Theory of Religion, by Peter L. Berger* Peter L. Berger, 1967 *The Encyclopedia of Christianity, Vol. 5* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth **Beyond Foundationalism** Stanley James Grenz, John R. Franke, 2001-01-01 Grenz and Franke provide a methodological approach for doing theology in the postmodern world They call for a theological method that moves beyond the Enlightenment way of ordering and understanding information foundationalism They propose a theological method that takes seriously the Spirit tradition and contemporary culture while stressing trinitarian structure community and eschatology **Sociological Theory and the Question of Religion** Andrew McKinnon, Marta Trzebiatowska, 2016-04-01 Religion lies near the heart of the classical sociological tradition yet it no longer occupies the same place within the contemporary sociological enterprise This relative absence has left sociology under prepared for thinking about religion s continuing importance in new issues movements and events in the twenty first century This book seeks to address this lacunae by offering a variety of theoretical perspectives on the study of religion that bridge the gap between mainstream concerns of sociologists and the sociology of religion Following an assessment of the current state of the field the authors develop an emerging critical perspective within the sociology of religion with particular focus on the importance of historical background Re assessing the themes of aesthetics listening and different degrees of spiritual self discipline the authors draw on ethnographic studies of religious involvement in Norway and the UK They highlight the importance of power in the sociology of religion with help from Pierre Bourdieu Marx and Critical Discourse Analysis This book points to emerging currents in the field and offers a productive and lively way forward not just for sociological theory of religion but for the sociology of religion more generally Interpreting Charles Taylor's Social Theory on Religion and Secularization Germán McKenzie, 2016-11-22 This book examines Taylorean social theory its sources main characteristics and impact Charles Taylor s meta narrative of secularization in the West prominently contained in his major work *A Secular Age* 2007 has brought new insight on the social and cultural factors that intervened in such process the role of human agency and particularly on the contemporary conditions of belief in North America and Europe This study discusses what Taylor s approach has brought to the scholarly debate on Western secularization which has been carried on

mostly in sociological terms McKenzie interprets Taylor's views in a way that offers an original social theory. Such interpretation is possible with the help of sociologist Margaret Archer's morphogenetic theory and by making the most of Taylor's particular understanding of the method of the social sciences and of his philosophical views on human beings, knowledge and modernity. After exploring the philosophical and sociological sources informing Taylorean social theory and proposing its basic concepts and hermeneutic guidelines, the author compares it with two widespread theories of secularization: the now waning orthodox account and that proposed by Rational Choice Theory scholars, particularly prevalent in the United States. In doing so, the book shows in which ways Taylorean social theory supersedes them, what new issues it brings into the scholarly discussion and what difficulties might limit its future development.

Friedrich Schleiermacher: Between Enlightenment and Romanticism Richard Crouter, 2005-12-22

Friedrich Schleiermacher's groundbreaking work in theology and philosophy was forged in the cultural ferment of Berlin at the convergence of the Enlightenment and Romanticism. The three sections of this book include illuminating sketches of Schleiermacher's relationship to contemporaries Mendelssohn, Hegel and Kierkegaard; his work as public theologian; dialogue on Jewish emancipation; founding the University of Berlin; as well as the formation and impact of his two most famous books: *On Religion*, *Speeches to its Cultured Despisers*, and *The Christian Faith*. Richard Crouter examines Schleiermacher's stance regarding the status of doctrine, Church and political authority, and the place of theology among the academic disciplines. Dedicated to the Protestant Church in the line of Calvin, Schleiermacher was equally a man of the university who brought the highest standards of rationality, linguistic sensitivity and a sense of history to bear upon religion.

New Patterns for Comparative Religion William E. Paden, 2016-05-19

The cross-cultural study of religion has always gone hand in hand with the worldview sciences or intellectual frameworks of the time. These frames, whether focused on psychology or politics, gender or colonialism, bring out perspectives for understanding religious behavior. Today, one of our common civic worldviews is represented in the shift from scriptural to evolutionary history. This volume brings together in one place key essays by professor emeritus William Paden, showing a progression of steps he has taken in exploring bridgeworks between comparative religion and evolutionary models of religious behavior. One of the leading scholars in religious studies, Paden shows ways that religion can be contextualized as part of the natural world and thus seen as reflecting the ingrained sociality and world-making drive of the human species. Paden argues that although comparativism has been challenged as too culture-bound, too western or too gendered, cross-over categories and concepts between religious traditions cannot be avoided. Arguing that there are recurrent patterns of human behavior common to our species and that thereby underlie all cultures, he proposes that the missing link in the Religion Evolution debate is comparative religion: a global cross-cultural perspective on religious behaviours throughout time. Each article is contextualized within this overall trajectory of thought within Paden's work and the history of the discipline as a whole.
