with the authors own work in coaching assessing and developing leaders for three decades around the world The book takes the reader on a journey through three major learnings First the authors describe the nature of the tide and the demands on leaders to move beyond a reactionary agile approach toward the forward leaning active stance of personal agency Second they describe three critical practices to successfully lead with agency and guide the tide Honest Engagement the practice of dealing with others from a place of openness honesty and a willingness to be vulnerable Addressing Reality the practice of seeing the world as it is rather than as we wish it to be the ability to separate fact from fiction and data from desire Adaptive Impact the practice of driving the organization team and oneself forward in a way that creates results beyond results that is delivering goals while building followership sustainability and Humanocity the integration of human creativity and judgment with the efficiency of digital automation Third they offer leaders a practical path to achieving the personal agency to successfully guide their organization through the tide that shapes their world *The Ravenglass Eye* Tom
