Consisting of species-by-species accounts accompanied by beautiful specially commissioned illustrations, this book outlines the history and often the future too of a wealth of wildlife species from badgers, bears, and beavers to wolves, kingfishers, the golden eagle, and the humble house sparrow. The geographical scope is British, but the subject will be of interest to conservationists around the world because of the unique historical material that will be included. The topic has enormous relevance today as public concern about the environment rises and controversies rage about hunting, wildlife management, and reintroduction of ancient species. **Exit** Stefan Helgesson, 2011 Preliminary Material.
