Either that or you just aren't following the tips in the book. This book gives you three critical points: What to play, when to play it, and How to read other players. When you have a good hand, another player might have a great hand, but how will you know? Learn why some of the best players dump early to read other players and what they do, and what ends up being their poker tells. This can see you through to the end. Its tournament style at its best. The book looks at table position, the number of players, the different and varying personalities of your opponents, flop textures, which hands to play and which to not play, and so much more that you will definitely be in awe. There is a Volume 2 coming out that shows even more advanced tips. What if you had a template on how to play poker, how much better off would you be? You would be in a great position, wouldn't you? You could set up the entire scenario. Well, sad to say, great poker players will tell you the same thing: EVERY GAME IS DIFFERENT. This means that you must learn to think on your feet and not follow hard and fast rules that will not apply to every situation. How will you know that you are a good poker player when you start to make money? That is true in a sense, but before you start making money, you have to start making better decisions in the game. What's the objective? IT IS TO STAY IN THE GAME. OF COURSE. The pot will be yours, hang in there and let the competition kill each other.
