**Schelling and the End of Idealism** Dale E. Snow,1996-01-01 This comprehensive general introduction to Schelling's philosophy shows that it was Schelling who set the agenda for German idealism and defined the term of its characteristic problems *Schelling and the End of Idealism* Dale E. Snow,1996-01-01 This book demonstrates that far from merely forming a step on the royal road to Hegel it was Schelling who set the agenda for German Idealism and defined the terms of its characteristic problems **Schelling's Dialogical Freedom Essay** Bernard Freydberg,2008-10-09 With clarity and liveliness Bernard Freydberg explores the major themes treated in Schelling's final public work freedom imagination the nature of God indifference and love Freydberg also examines Schelling's engagement with philosophy's history including the relationship between his ideas and those of Plato and Kant his oracular and mythical languages and his relevance to contemporary thought *The Collaborative Bibliography of Women in Philosophy* Noël Hutchings,1997 Whitaker's Books in Print ,1998 **The Poetic Imagination in Heidegger and Schelling** Christopher Yates,2013-08-15 The imagination is a decisive if underappreciated theme in German thought since Kant In this rigorous historical and textual analysis Christopher Yates challenges an oversight of traditional readings by presenting the first comparative study of F W J Schelling and Martin Heidegger on this theme By investigating the importance of the imagination in the thought of Schelling and Heidegger Yates study argues that Heidegger's later more poetic philosophy cannot be understood properly without appreciating Schelling's central importance for him A key figure in post Kantian German Idealism Schelling's penetrating attention to the creative character of thought remains undervalued Capturing the essential manner in which Heidegger's ontology and Schelling's idealism intersect *The Poetic Imagination in Heidegger and Schelling* likewise presents an introduction to better understanding Heidegger's later thought It reveals how his engagement with Schelling encouraged Heidegger to recover and refine the imagination as a poetic as opposed to reductive and dogmatic collaborator in the life of truth Tracing the theme of imagination in new readings of these major thinkers Yates study not only acknowledges Schelling's provocative place in post Kantian German Idealism but demonstrates as well the significance of Schelling's philosophical focus and style for Heidegger's own concentration on the creative vocation of human artistry and thought

Schelling-Eschenmayer Controversy, 1801 Benjamin Berger,2020-03-18 Berger and Whistler provide a ground breaking account of Schelling's first controversy with his critic A C A Eschenmayer in 1801 which focused on the philosophy of nature They argue that key Schellingian concepts such as identity potency and abstraction were first forged in his early debate with Eschenmayer American Book Publishing Record ,1996 Forthcoming Books Rose Arny,1995 Subject Guide to Books in Print ,1996 **Consciousness** Sara Heinämaa,Vili Lähteenmäki,Pauliina Remes,2007-07-16 SARA HEIN MAA VILI LÄHTENMÄKI AND PAULIINA REMES This book is about consciousness It illuminates the concept in its complexity and richness capturing its theoretical and philosophical significance as well as its problematic aspects By taking a new look into

the history of concepts the collection questions several deep seated assumptions about consciousness assumptions both thematic and methodological It argues that even though our predecessors did not formulate their philosophical queries in terms of consciousness they have much to offer to our current disputes concerning its central features such as reflexivity subjectivity and aboutness as well as related themes from selfhood to attention and embodiment At the same time the collection demonstrates that consciousness is not just an issue in the philosophy of mind but is bound to ontology epistemology and moral theory We can find premodern and early modern concepts and arguments that are interesting and even crucial to our own philosophical concerns but we should not assume that these belong or contribute to any theory of mind isolated from metaphysical and ethical discussions an argument that for us provides insightful descriptions of perception or self awareness might to its writer have meant not just a theoretization of the soul or the mind but also and perhaps more importantly a contribution to ethics or ontology

**The Perfection of Freedom** DC Schindler, 2017-03-31 The Perfection of Freedom seeks to respond to the impoverished conventional notion of freedom through a recovery of an understanding rich with possibilities yet all but forgotten in contemporary thought This understanding developed in different but complementary ways by the German thinkers Schiller Schelling and Hegel connects freedom not exclusively with power and possibility but rather most fundamentally with completion wholeness and actuality What is unique here is specifically the interpretation of freedom in terms of form whether it be aesthetic form Schiller organic form Schelling or social form Hegel Although this book presents serious criticisms of the three philosophers it shows that they open new avenues for reflection on the notion of freedom avenues that promise to overcome many of the dichotomies that continue to haunt contemporary thought for example between freedom and order freedom and nature and self and other The Perfection of Freedom offers not only a significantly new interpretation of Schiller Schelling and Hegel but also proposes a modernity more organically rooted in the ancient and classical Christian worlds

**Jahresberichte für deutsche Geschichte** ,1997 **Poetics, Speculation, and Judgment** Jacques Taminiaux, 1993-07-01 A collection of ten previously published or delivered essays by Taminiaux philosophy Boston College and the Universite de Louvain Among the topics are the attitudes of philosophers to politics and fine art the nostalgia for Greece at the dawn of classical Germany and the Hegelian legacy in Heidegger's overcoming of aesthetics Paper edition unseen 19 95 Annotation copyright by Book News Inc Portland OR [MLA International Bibliography of Books and Articles on the Modern Languages and Literatures](#) ,2006 [Choice](#) ,2004 **Internationale Bibliographie zur deutschen Klassik 1750-1850** ,1965\* *Matters of Spirit* F. Scott Scribner, 2015-10-13 This book offers a radically new interpretation of the entire philosophy of J G Fichte by showing the impact of nineteenth century psychological techniques and technologies on the formation of his theory of the imagination the very centerpiece of his philosophical system By situating Fichte's philosophy within the context of nineteenth century German science and culture the book establishes a new genealogy one that shows the extent to which German idealism's transcendental account of the

social remains dependent upon the scientific origins of psychoanalysis in the material techniques of Mesmerism The book makes it clear that the rational transcendental account of spirit imagination and the social has its source in the psychological phenomena of affective rapport Specifically the imagination undergoes a double displacement in which it is ultimately subject to external influence the influence of a material technique or in short a technology **The Philosopher's Index** ,1987 Vols for 1969 include a section of abstracts The Metaphysics of German Idealism Martin Heidegger,2021-07-16 This volume comprises the lecture course that Heidegger gave in 1941 on the metaphysics of German Idealism The first part of the lecture course contains a preliminary consideration of the distinction between ground and existence The elucidation of the conceptual history includes a striking confrontation with Kierkegaard s and Jaspers concepts of existence as well as an elucidation of the concept of existence in Being and Time which Heidegger distinguishes from the former concepts Heidegger s self interpretation is not an end in itself however but rather a way of pointing to Schelling s distinction between ground and existence whose root and inner necessity and whose various versions Heidegger discusses subsequently The second part of the lecture course is focused on Schelling s freedom treatise which Heidegger regards as the pinnacle of the metaphysics of German Idealism Heidegger s consideration of Schelling s distinction between ground and existence finds its guiding thread in the introduction of the realms of being eternal or finite each being is a joining of the ground of existence and existence itself In a subsequent overview Heidegger discusses the relation of the distinction between ground and existence to the essence of human freedom and to the essence of the human On the basis of this discussion it becomes possible to grasp the connection between freedom and evil in Schelling s system This important work by Heidegger published here in English for the first time will be of great interest to students and scholars of philosophy and to anyone interested in Heidegger s work
