Leonardo, 1977 International journal of contemporary visual artists **Right-Wing Media's Neurocognitive and Societal Effects** Rodolfo Leyva, 2023-07-31 This book empirically tests compares and explains the effects of British and American legacy conservative press and far right websites on accordant political views and behavioural intentions Correspondingly the 2016 Brexit Referendum and American Presidential election results are often attributed to the spread of fake news through social media Russian Bots and alt right news websites This has raised concerns about the impact of digital disinformation on democracy as well as the rise of nativist parties and movements worldwide However this book argues that these causal attributions are largely based on unproven assumptions and deflect attention from the more influential and harmful role of traditional conservative media To support this argument Leyva incorporates insights from various fields such as neurocognitive science media communication research cross cultural psychology and sociology Additionally the book presents primary evidence from a series of experiments that examined the effects of candidate related fake news and immigration coverage from both old and new media right wing sources These experiments focused on how such content influences anti immigrant attitudes and voter preferences By doing so the book provides a nuanced and robustly tested theoretical account of how right wing media affects political beliefs sentiments and practices at the neuronal level and of how this can in turn negatively impact democratic multicultural societies Given its interdisciplinary approach this book will be of interest to scholars in the social behavioural and cognitive sciences who are studying media psychology online misinformation authoritarian populism political sociology new media and journalism *The Imitation of Gestures* Jean Bergès, Irène Lézine, 2016-08-10 The Imitation of Gestures describes the sets of tests of the imitation of gestures in children performed by the examiner These tests provide valuable information about the development of motor skills particularly the right left orientation in children from 4 to 8 years of age This book is composed of two main sections encompassing 9 chapters Part I presents the methods for studying the imitation of simple and complex gestures of the hands and arms This part also covers the application of these methods to children who would be likely to have disturbances in motor and verbal development The second part describes the supplementary tests to the Imitation of gestures test used for the study of body image This part also deals with the intercorrelations between the results obtained on the different tests namely the Imitation of gestures Drawn a man test Grace Arthur mannequin puzzle and the verbal test of naming and pointing to the body parts Pediatricians neurologists and clinical psychologists will find this book rewarding Computational and Corpus-Based Phraseology Gloria Corpas Pastor, Ruslan Mitkov, 2022-09-21 This book constitutes the refereed proceedings of the 4th International Conference on Computational and Corpus Based Phraseology Europhras 2022 held in Malaga Spain in September 2022 The 16 full papers presented in this book were carefully reviewed and selected from 59 submissions The papers in this volume cover a number of topics including general corpus based approaches to phraseology phraseology in

translation and cross linguistic studies phraseology in language teaching and learning phraseology in specialized languages phraseology in lexicography cognitive approaches to phraseology the computational treatment of multiword expressions and the development annotation and exploitation of corpora for phraseological studies **Saving Science from Quantum Mechanics** Emily Adlam, 2025-07-25 The quantum measurement problem refers to a collection of unresolved questions about what happens during the measurement of a quantum system The measurement problem must be solved in order for us to understand what kind of underlying reality could be compatible with the mathematical formalism of quantum mechanics The existing literature on the measurement problem typically views the problem through the lens of ontology and metaphysics Adlam reconceptualizes the quantum measurement problem as a problem of epistemology and in doing so presents a novel perspective on the issue offering a new approach to finding valid solutions Once we understand the importance of epistemology to the measurement problem it becomes clear that several popular proposals have epistemic flaws which threaten their viability as solutions This reframing helps clear the field so we can see where future research should be focused Saving Science from Quantum Mechanics delves into the subtle relationship between physics and epistemology exploring how they constrain and inspire each other It will use the measurement problem to motivate a wide ranging account of the epistemology of science and to highlight the role of coherence in justifying the use of measurements and observations in the scientific process **Hydrogeodynamics** I.K. Gavich, 2020-10-07 This text focuses particularly on the growing interest in hydrodynamic principles of the study of underground waters new methods of eco based hydrogeodynamic analysis and the estimation of the quantity of infiltration water transfer The author also discusses aspects of mass transfer by subsurface water flow in the light of molecular kinetics and examines a new approach to investigating the slow movements of groundwater at the deep zones of the hydrolithosphere **Ulrich's International Periodicals Directory** Carolyn Farquhar Ulrich, 1998 **L'enfant et les images de la littérature enfantine** Jacqueline Danset-Léger, 1980 Un examen de la littérature enfantine actuelle montre que celle ci donne une place prépondérante aux images Il convient alors de se demander ce que font les enfants des images et ce que les images leur font ces questions font l'objet de nombreuses discussions alimentées par des études et expériences variées dont l'auteur donne ici un vaste panorama orientant ses réflexions dans les axes suivants les réactions des enfants devant les images devant les images réalistes devant les images incongrues devant les images complexes la lecture de l'image et l'association des images le déchiffrement des histoires en images **New Serial Titles**, 1974 A union list of serials commencing publication after Dec 31 1949 **Ulrich's Periodicals Directory 2005** R. R. Bowker LLC, 2004 **Psychological Theories for Environmental Issues** Mirilia Bonnes, 2017-03-02 Environmental psychology is an increasingly important area of research focusing on the individual and social factors responsible for many critical human responses to the physical environment With such rapid and widespread growth the main theoretical strands have often been left unclear and their scientific and practical implications have been underdeveloped This essential and

stimulating book contextualizes and critically analyzes the main theoretical ideas. It compares the different theories assessing each one's possibilities and limitations and demonstrates how each approach has been used for the development of knowledge of environmental psychology. The research area infiltrates a broad selection of disciplines including psychology, architecture, planning, geography, sociology, environmental issues, economics, and law. It also offers significant contributions to a wide range of policy evaluations. It will prove invaluable to academics and practitioners from across these disciplines above all those in planning, environmental studies, human geography, and psychology. Knowledge in Minds A. L. Wilkes, 1997

Many texts in cognitive psychology deal with the details of cognitive processes as individually defined. This text provides an account of cognition that focuses upon the cumulative and shared nature of human enterprise. It aims to adopt a balanced approach by considering both theories. The result is a wide-ranging detour that starts off with cognitive science then diverts into the domains of developmental and social psychology before ending up in territory that is normally occupied by historians and evolutionary biologists. **Classica et Mediaevalia vol. 63** George Hinge, 2013-07-30 *Classica et Mediaevalia* is an international peer-reviewed journal covering the field of the Greek and Latin languages and literature from classical antiquity until the late Middle Ages as well as the Greco-Roman history and traditions as manifested in the general history, history of law, history of philosophy, and ecclesiastical history. Articles are published mainly in English but also in French and German. The present issue includes chapters on divination as a convention of war in Classical Greece, pornographic allusions in Catullus, Sophistic oratory and styles in Roman Asia Minor, suspense and surprise in Achilles Tatius's *Leucippe and Clitophon*, narrative time and mythological tale types focusing on Beowulf and Odysseus, and Petrarch's reading of Cicero's letters among others. *Kant's Metaphysic of Experience* H.
