Harvard Ukrainian Studies, 2007 **The Origins of the Slavic Nations** Serhii Plokhy, 2006-09-07 This book documents developments in the countries of eastern Europe including the rise of authoritarian tendencies in Russia and Belarus as well as the victory of the democratic Orange Revolution in Ukraine and poses important questions about the origins of the East Slavic nations and the essential similarities or differences between their cultures It traces the origins of the modern Russian Ukrainian and Belarusian nations by focusing on pre modern forms of group identity among the Eastern Slavs It also challenges attempts to nationalize the Rus past on behalf of existing national projects laying the groundwork for understanding of the pre modern history of Russia Ukraine and Belarus The book covers the period from the Christianization of Kyivan Rus in the tenth century to the reign of Peter I and his eighteenth century successors by which time the idea of nationalism had begun to influence the thinking of East Slavic elites *Ukraine* Orest Subtelny, 2009-11-10 In 1988 the first edition of Orest Subtelny's *Ukraine* was published to international acclaim as the definitive history of what was at that time a republic in the USSR In the years since the world has seen the dismantling of the Soviet bloc and the restoration of Ukraine's independence an event celebrated by Ukrainians around the world but which also heralded a time of tumultuous change for those in the homeland While previous updates brought readers up to the year 2000 this new fourth edition includes an overview of Ukraine's most recent history focusing on the dramatic political socio economic and cultural changes that occurred during the Kuchma and Yushchenko presidencies It analyzes political developments particularly the so called Orange Revolution and the institutional growth of the new state Subtelny examines Ukraine's entry into the era of globalization looking at social and economic transformations regional ideological and linguistic tensions and describes the myriad challenges currently facing Ukrainian state and society *The Development of the Bulgarian Literary Language* Ivan N. Petrov, 2021-03-19 Ivan N Petrov's *The Development of the Bulgarian Literary Language From Incunabula to First Grammars Late Fifteenth Early Seventeenth Century* examines the history of the first printed Cyrillic books and their role in the development of the Bulgarian literary language In the literary culture of the Southern Slavs especially the Bulgarians the period that began at the end of the fifteenth century and covered the sixteenth and seventeenth centuries is often seen as a foreshadowing of the pre national era of modern times In particular the centuries old manuscript tradition was gradually replaced by the Cyrillic printed book which after the incunabula of Krakow and Montenegro was published in such centers as Trgovište Prague Venice Serbian monasteries Vilnius Moscow Zablud w Lviv Ostroh and many others Petrov shows how the study of old Slavic prints is closely linked to the processes that determined the emergence of modern literary languages in the Slavia Orthodoxa area including the influence of the liturgical Church Slavonic language shared by the Orthodox Slavs which was increasingly standardized and codified at that time The perspective of a language historian brings new light to the complex and multidimensional issues of this important transitional period of Slavic history and culture **Meletij**
