Seventeenth Century Paul Delany, 2015-08-14 Originally published in 1969 In the seventeenth century neither the literary genre nor the term autobiography existed but we see in seventeenth century literature many kinds of autobiographical writings to which their authors gave such titles as Journal of the Life of Me Confessions etc This work is a study of nearly two hundred of these published and unpublished which together represent a very varied group of writings The book begins with an examination of the rise of autobiography as a genre during the Renaissance It discusses seventeenth century autobiographical writings under two main headings religious where the autobiographies are grouped according to the denomination of their writer and secular where a wide variety of writings is examined including accounts of travel and of military and political life as well as more personal accounts Autobiographies by women are treated separately and the author shows that they in general have a deeper revelation of sentiments and more subtle self analyses than is found in comparable works by men Sources and influences are recorded and also the essential historical details of each work This book gives a critical analysis of the autobiographies as literary works and suggests relationships between them and the culture and society of their time Review of the original publication a contribution to cultural history which is of quite exceptional merit Its subject is of great intrinsic interest and manifest importance and Professor Delany has treated it with exemplary thoroughness lucidity and intelligence Lionel Trilling

The Politics of Memoir and the Northern Ireland Conflict Stephen Hopkins, 2013 This book examines memoir writing by many of the key political actors in the Northern Irish Troubles 1969-1998 and argues that memoir has been a neglected dimension of the study of the legacies of the violent conflict It investigates these sources in the context of ongoing disputes over how to interpret Northern Ireland's recent past A careful reading of these memoirs can provide insights into the lived experience and retrospective judgments of some of the main protagonists of the conflict The period of relative peace rests upon an uneasy calm in Northern Ireland Many people continue to inhabit contested ideological territories and in their strategies for shaping the narrative telling of the conflict key individuals within the Protestant Unionist and Catholic Irish Nationalist communities can appear locked into exclusive and self justifying discourses In such circumstances while some memoirists have been genuinely self critical many others have utilised a post conflict language of societal

greatest value lies in its candid picture of a spunky self educated woman who doggedly transformed herself into an esteemed and prolific novelist and playwright who fell in love with a count and married him and who made her name synonymous with the bohemian life of the 1840s and 1850s in Paris
