Outwitting The Gestapo:

Outwitting the Gestapo Lucie Aubrac, 1994 Lucie Aubrac of Catholic and peasant background was teaching history in a Lyon girls school and newly married to Raymond a Jewish engineer when World War II broke out and divided France The couple living in the Vichy zone soon joined the Resistance movement in opposition to the Nazis and their collaborators Outwitting the Gestapo is Lucie s harrowing account of her participation in the Resistance of the months when though pregnant she planned and took part in raids to free comrades including her husband under Nazi death sentence from the prisons of Klaus Barbie the infamous Butcher of Lyon Her book is also the basis for the 1997 French movie Lucie Aubrac which was released in the United States in 1999 Remembering the Occupation in French film L. Hewitt, 2008-02-18 When collective memory is a source of national debate the public representation of history quickly becomes a locus of controversy and ideological struggle This work shows how French film has allowed for a public airing of current concerns through the lens of memory s recreations of the Occupation Women's Representations of the Occupation in Post-'68 France Claire Gorrara, 1998-08-12 This study examines French women s writing and representations of the Occupation in post 68 France The author looks at the work of The Women Resisters those women who were adult resisters during the war and The Daughters of the Occupation those who were born during or after the war period The main contention of the study is that the older generation s nascent awareness of how gender informs political activism is reworked into explicitly feminist representations of wartime France by younger women writers **Prologue**, 1969 **Interrogation in War and Conflict** Christopher Andrew, Simona Tobia, 2014-04-29 This edited volume offers a comparative and interdisciplinary analysis of interrogation and questioning in war and conflict in the twentieth century Despite the current public interest and its military importance interrogation and questioning in conflict is still a largely under researched theme This volume s methodological thrust is to select historical case studies ranging in time from the Great War to the conflicts in former Yugoslavia and including the Second World War decolonization the Cold War the Troubles in Northern Ireland and international justice cases in The Hague each of which raises interdisciplinary issues about the role of interrogation These case studies were selected because they resurface previously unexplored sources on the topic or revisit known cases which allow us to analyse the role of interrogation and questioning in intelligence security and military operations Written by a group of experts from a range of disciplines including history intelligence psychology law and human rights Interrogation in War and Conflict provides a study of the main turning points in interrogation and questioning in twentieth century conflicts over a wide geographical area The collection also looks at issues such as the extent of the use of harsh techniques the value of interrogation to military intelligence security and international justice the development of interrogation as a separate profession in intelligence as well as the relationship between interrogation and questioning and wider society This book will be of much interest to students of intelligence studies strategic studies counter terrorism international justice history and IR in general **'This**

Anguish, Like a Kind of Intimate Song' Lillian Leigh Westerfield, 2004 This literary history explores the reality of European women's roles in fighting Nazism By comparing the resistance literature of French and German authors this book links the traditional gender expectations for women and the conventions of their everyday lives with their unique forms of resistance Theirs was an opposition grounded in the ordinary beyond the sphere of political violence Women were long regarded as outsiders to combat and politics with no stake in upholding resistance myths Women authors therefore freely rendered the personal and moral landscape of the resister's world in a new vocabulary They revised standard rhetoric and replaced heroism and bullets with the values of home human relationships and candid acknowledgement of the sorrow fear and uncertainty of war

Why Fascists Fear Teachers Randi Weingarten, 2025-09-16 A rousing defense of public education as the cornerstone of American democracy by the woman attacked by the far right as the most dangerous person in the world Attacks on schools and teachers have long been a hallmark of fascist regimes Throughout history as many dictators rose to power they began banning books and controlling curriculum Fascists fear teachers because teachers foster an educated and empowered population that can see past propaganda and scare tactics Fascists fear teachers because they teach young people how to think for themselves As the head of one of the largest teachers unions in America Randi Weingarten is among the last lines of defense for American public education For decades she has sounded the alarm that attacks on teachers are part of a larger darker agenda to undermine democracy opportunity and public education as we know it After the Trump administration declared its intention to dismantle the Department of Education that alarm became undeniable This book tells the story of what teachers do and why those who are afraid of freedom and opportunity try to stop them It explains why all Americans should care about attacks on schools and teachers whether they have school aged children or not In the past as today the fate of the United States is inexorably intertwined with the fate of public education Drawing on history stories from teachers on the front lines and decades of experience with America's public schools Weingarten argues that teaching students to think critically is the key to defeating would be dictators She encourages teachers to continue focusing on their vital mission to help young people thrive creating opportunity in safe and welcoming classrooms promoting tolerance and teaching problem solving critical thinking and healthy debate She cautions against censorship and complacency looking to the past to warn us all about what can happen if we devalue teachers and public schools A manifesto for our time **Why Fascists Fear Teachers** is necessary reading for every American worried about the future of our democracy

Historical Controversies and Historians William Lamont, 2005-06-20 For students new to the subject of history there are many books on the theory of writing history but fewer on how history is actually practised This work by a team of historians from the University of Sussex fills this gap The first half of the book examines a number of notable controversies that have been and still are the subject of historical debate for example race in South Africa the legacy of the French Resistance the origins of the Welfare State These illustrate the issues involved in doing history The second half of the book focuses upon the historians

themselves such as Tawney Carr Buckhardt Weber Thompson and demonstrates how the historian puts his her own spin on historical interpretation Together the study of controversies and historians shows with clarity the practical issues of historical method Historical Controversies and Historians should be a useful primer for any student embarking on a course in history

In the Footsteps of the Holocaust Ainslie Hepburn,2025-06-30 This is a story of ordinary people ordinary people who were caught up in the cataclysm of events in Europe during the 1930s and 1940s A discovery of letters that had been carefully kept for decades since that time led to the uncovering of a family story that took the author on a journey in the footsteps of her husband s grandparents through Germany Belgium and France Hermann Hartog 1887 1942 was a Jewish teacher in the north west of Germany at a time of increasing anti Semitism He and his wife Henny 1897 1942 recognised that Germany was becoming an unsafe place for Jews and sent their daughters to England for safety As a leader of his community Hermann stayed for as long as he could After Kristallnacht in November 1938 Hermann was arrested with other Jewish men and sent to the concentration camp at Sachsenhausen He was later released on condition that he would leave the country Hermann and Henny fled Germany for Brussels but when Belgium was invaded in 1940 they were sent to Paris and then found refuge in a village in the south west of France Here ordinary people gave them shelter work and friendship and shared their lives during the dark days of 1941 and 1942 When French police acting on the orders of the Vichy government and the Nazi occupiers of France arrested Hermann and Henny it was part of a round up of Jews to deport them for extermination After a long journey they were murdered in Auschwitz in September 1942 An active memory of the Hartog family lives on In France and Germany ordinary people remember their names commemorate their legacy and work to build communities where tolerance acceptance and friendship can thrive
