Elena Tarasheva, 2014-06-26 When the East set off to join the West in a common Europe its economic and political oddities became increasingly visible in the rapprochement So what does the West make of the East How does ex communist Europe come across through the lens of the Western media This book presents research conducted on all material concerning Bulgaria on the BBC website over a period of five years starting with the early years of EU accession in 2007 up to the hysteria regarding a wave of Bulgarian immigrants to the UK in 2012 Three types of methodologies are applied namely content analysis critical discourse analysis and corpora techniques Several coding categories are employed for the content analysis including what type of stories are published about Bulgaria in comparison with countries of a similar size and standing which stories were not covered by the BBC and what areas are of specific interest in the coverage of former communist countries A new taxonomy is established for thematic threads and continuous coverage which sets off significant value laden aspects of news reporting Critical discourse analysis reveals that Bulgarians are construed via a different set of referential terms while English people living abroad are called ex patriots Bulgarians are immigrants In its plentiful criticism of Bulgaria Euro Speak is reproduced where nominalisations such as we cannot delay their integration reveal a mental frame of rejection not integration The BBC uses EU jargon between inverted commas the effects of Bulgaria s integration into the Schengen zone are grave instead of a factual taxonomic adjective naming the actual consequences Thus the language used reveals hidden attitudes Corpora techniques include establishing words whose frequency in the articles about Bulgaria is higher than in a balanced corpus of English Such nouns in the five year corpus include CORRUPTION POOR and POOREST Maybe the BBC reporters believed they were covering events as they happened but the results evoke a grim picture prompting unfavourable attitudes to Bulgarians That is why the images spawned by news coverage need to be monitored and moderated for which this book offers an array of methodologies New Interchange Teacher's Edition 1
