Picturing Modernism Moholy Nagy And Photography In Weimar Germany

Picturing Modernism Moholy Nagy And Photography In Weimar Germany:

Picturing Modernism Eleanor M. Hight, 1995 Eleanor Hight rejects the traditional view that sees Moholy as merely applying formalist means to his subject matter. Instead, her penetrating study focuses on his intensive program to develop a visual language which he called the New Vision to explore and image the modern world. *Albers and Moholy-Nagy* Achim Borchardt-Hume, 2006-01-01 Catalog of an exhibition held at the Tate Modern London Mar 9 June 4 2006 the Kunsthalle Bielefeld June 25 Oct 1 2006 and the Whitney Museum of American Art New York Nov 2 2006 Jan 21 2007 **Practicing Modernity** Carmel Finnan, 2006 Vorwort I Sharp Women and Weimar Berlin C Ujma Theories of Masculinity and the Avant Garde T Elsaesser The Camera in the Kitchen Grete Schütte-Lihotsky and Domestic Modernity A Baumhoff Women in the Bauhaus Gender Issues in Weimar Culture D Rowe Painting herself Lotte Laserstein between subject and object U Seiderer Between Minor Sculpture and Promethean Creativity The Position of Kollwitz in Weimar's Discourse on Art C Finnan Photographers between Challenge and Conformity Yva s Career and Ruvre K Bruns Thea von Harbou Writing Skills and Film Aesthetics J Trimborn Leni Riefenstahl's Career before Hitler Success stories of an Outsider C Schönfeld Lotte Reiniger and the Art of Animation A Lareau The Blonde Lady Sings Women in Weimar Cabaret I C Gil Jede Frau ist eine Tänzerin The Gender of Dance in Weimar Culture B Maier Katkin Anna Seghers Irmgard Keun A Discourse on Emancipation and Social Circumstance C Ujma Gabriele Tergit and Berlin Women City and Modernity C Finnan Marieluise Fleißer's Self Reflections on the Female Writer J Redmann Else Lasker-Schöler versus the Weimar Publishing Industry Genius Gender Politics and the Literary Market J Warren Contrasted Heroines in Two Plays by Ilse Langner A Dramatist at Weimar's End L Soares Vicky Baum and Gina Kaus Vienna Berlin Hollywood **Laszlo Moholy-Nagy** Joyce Tsai, 2018-04-06 Laszlo Moholy-Nagy is the first monograph on Moholy to attend to the fraught but central role painting played in shaping his aesthetic project. His reputation has been that of an artist far more interested in exploring the possibilities offered by photography film and other new media than in working with what he once called the anachronistic medium of painting. And yet with the exception of the period between 1928 and 1930 Moholy painted throughout his career. Joyce Tsai argues that his investment in painting especially after 1930 emerged not only out of pragmatic and aesthetic considerations but also out of a growing recognition of the economic political and ethical compromises required by his large scale technologically mediated projects aimed at reforming human vision. Without abandoning his commitment to fostering what he called New Vision Moholy came to understand painting as a particularly plastic field in which the progressive possibilities of photography film and other emergent media could find provisional expression. Provided by publisher Modernist Aesthetics in Transition Deborah Ascher Barnstone, Donna West Brett, 2025-01-23 How did German aesthetic values change during the Weimar Republic and after its immediate collapse at the beginning of the National Socialist period? Contrary to conventional narratives that depict modernist aesthetics as static shaping principles of modern art and design, this volume argues for their complexity and ever

shifting nature Illuminating the vital exchanges that occurred across multiple art forms during a period of unmatched cultural activity this multi disciplinary volume explores the cultural transition between Weimar and National Socialist era Germany and offers a fresh perspective on the fate of modernism during a time of censorship and social stigma Featuring essays on architecture painting photography film sculpture cabaret typography and commercial design the volume explores competing and comparable themes across German art from 1919 1945 and addresses how modern approaches like New Vision coexisted with more traditional and established artistic modes Such visual complexity is evident from the volume s eclectic coverage these include sexology and eroticism visual grammar in typography and architecture the reception of Weimar art in the National Socialist period and the formation and transformation of queer and Jewish identities The volume encompasses subjects as different as shadow in the animated films of Lotte Reininger filmic adaptations of Heinrich Zille s social commentary in the 1920s the photography of L szl Moholy Nagy and depictions of female sexuality in Magnus Hirschfeld s oeuvre By bridging multiple artistic fields this highly interdisciplinary work provides a fresh perspective on the ever changing art and aesthetic principles of early 20th century Germany

Photography, Architecture, and the Modern Italian

Landscape Lindsay Harris, 2024-11-19 Photography Architecture and the Modern Italian Landscape explores the impact of photography at a pivotal moment in Italian architecture and culture focusing on the period between 1910 and the mid 1970s. The book analyzes architectural photographs taken by Italian cultural figures who helped transform the Italian landscape into what we know today. This study charts the oscillation of Italians' ideas about what progress signified. For example, the book demonstrates that for writers and artists familiar with ancient ideas about civilization in 1910 the Roman countryside exemplified the contradictions inherent in primitivism. On the one hand, their photographs praised the region's primordial beauty, yet their images condemned the crudeness of local living conditions. More broadly, it traces the history of primitivism and photography in Italy to show how cultural leaders' alarm at the nation's pre-modern living conditions, their aspiration to modernize them, and their grasp of photography to catalyze the process helped forge the modern Italian landscape: its monuments, housing, infrastructure, and natural environments. At the same time, it explores a vibrant period in photographic history when the advent of photographic reproduction as a commercial process developed into a medium with its own visual style, capable of shaping ideas about modernity. This new image-making and reproduction technology empowered Italy's cultural leaders not simply to represent the Italian landscape through photography but to determine how it developed. Of interest to researchers and students from a range of disciplines, modern architecture, photography, and Italian studies, this book demonstrates the power of art to transform society and to reformulate our ideas of progress.

A Companion to Photography Stephen Bull, 2020-02-03 The study of photography has never been more important. A look at today's digital world reveals that a greater number of photographs are being taken each day than at any other moment in history. Countless photographs are disseminated instantly online, and more and more photographic images are earning prominent positions and garnering record prices in the rarefied realm of top art galleries. Reflecting this dramatic increase in all things photographic, *A Companion to Photography* presents a comprehensive collection of original essays that explore a variety of key areas of current debate around the state of photography in the twenty-first century. Essays are grouped and organized in themed sections, including photographic interpretation, markets, popular photography, documents, and fine art, and provide comprehensive coverage of the subject. Representing a diversity of approaches, essays are written by both established and emerging photographers and scholars, as well as various experts in their respective areas. *A Companion to Photography* offers scholars and professional photographers alike an essential and up-to-date resource that brings the study of contemporary photography into clear focus.
