Lucrece. Sonnets. Lover's complaint. Passionate pilgrim. Phoenix and turtle. Index William Shakespeare,1881 **The Art of Christian Alchemy** Roger Corless,2008-10-01 The Art of Christian Alchemy is a witty and provocative book that explores in twentieth century terms the spiritual yearnings of modern people It is a magic tour through evolutionary theory and the bi cameral brain with detours into such areas as handicrafts dieting and sex But in all of these travels Roger Corless is tracking down an ancient and rich vein The Spiritual life he says is the transfiguration of the ordinary Through prayer meditation and ascetical practices we can take the ordinary stuff of life and change it into something more noble just as alchemists of old sought to transform base metals into gold The key to this transfiguration is the threefold way of work listening and praise outlined by St Benedict in the sixth century and still practiced by communities of Benedictines in the U S and elsewhere Corless initiates us into their method Ultimately he brings us to the place where St Francis Teilhard de Chardin Buddha Benedict and Jesus dwell together at the table of unity **The Metaphysics of**

Dante's Comedy Christian Moevs,2008-10-13 The recovery of Dante s metaphysics which are very different from our own is essential argues Christian Moevs if we are to resolve what has been called the central problem in the interpretation of the Comedy That problem is what to make of the Comedy s claim to the status of revelation vision or experiential record as something more than imaginative literature In this book Moevs offers the first sustained treatment of the metaphysical picture that grounds and motivates the Comedy and the relation between those metaphysics and Dante s poetics Moevs arrives at the radical conclusion that Dante believed that all of what we perceive as reality the spatio temporal world is in fact a creation or projection of conscious being Armed with this new understanding Moevs is able to shed light on a series of perennial issues in the interpretation of the Comedy **Lucrece. Sounding the Indian Ocean Jim Sykes, 2023-09-26 Providing numerous case studies ranging across the Indian Ocean across disparate time periods and historical and ethnographic approaches Sounding the Indian Ocean Musical Circulations in the Afro Asiatic Seascape brings together the disciplines of Indian Ocean and music studies As glimpsed above in the Sufi and Catholic networks connecting South and Southeast Asia the chapters in this volume explore how music helps materialize networks of connection across the Indian Ocean Region IOR and in several of its distinct locales Our focus is not simply the well worn tropes of Indian Ocean cosmopolitanism however nor a definition of the IOR as a site for the harmonious mixing of populations though some of our chapters do one or both of these Rather we show how music contributes to placemaking in distinct Indian Ocean worlds Srinivas et al 2020 Instead of defining music's value in its ability to provide either narratives of identity formation or the celebration of mixture Sounding the Indian Ocean explores the role music plays in both boundary formation and boundary crossing in Indian Ocean contexts past and present

Icons of Space Jelena Bogdanović, 2021-07-26 Icons of Space Advances in Hierotopy brings together important scholars of Byzantine religion art and architecture to honour the work of renowned art historian Alexei Lidov As well as his numerous publications Lidov is well known for developing the concept of hierotopy an innovative approach for studying the creation of sacred spaces Hierotopy and the related concepts of spatial icons and image paradigms emphasize fundamental questions about icons including what defines them as structures spaces and experiences Chapters in this volume engage with the overarching theme of icons of space by employing contrasting and complementing methods of hierotopy with more traditional approaches

such as iconography Examinations of icons have traditionally been positioned within strictly historical theological socio economic political and art history domains but this volume poses epistemological questions about the creation of sacred spaces that are instead inclusive of multi layered iconic ideas and the lived experiences of the creators and beholders of such spaces This book contributes to image theory and theories of architecture and sacred space Simultaneously it moves beyond colonial studies that predominantly focus on questions of religion and politics as expressions of privileged knowledge and power This book will appeal to scholars and students of Byzantine history as well as those interested in hierotopy and art history
