REDUCE THE TERROR OF PILOT ERROR The most effective aviation safety tools ever Controlling Pilot Error guides give you expert protection against the causes of up to 80% of aviation accidents pilot mistakes Each title provides Real life pilot stories Valuable save yourself techniques and safety tips Clear and concise analysis of error sets Controlling Pilot Error

CULTURE ENVIRONMENT AND CRM Pilot decision making is impacted by many influences A knowledge of recent discoveries on aviators decisions and crew cockpit interactions during crisis is important to all pilots Tony Kern s Culture Environment and CRM confronts the human factors behind most aviation mishaps Applying scientific explanations to allow you to Recognize the psychological booby traps that imperil lives Put firewalls between you and the human factors that doom flights Improve priceless pilot judgement skills with proven techniques Adopt a simple four step backup plan for flight critical decisions Apply the lifesaving CRM loop process and specific tested CRM tools and techniques for safer flying Learn why followership is as essential to good decision making as leadership Discover why though human failing is inevitable it need not be fatal

BEST FOR PILOTS Build your knowledge base Increase your confidence Sharpen your skills Learn lifesaving tips Tony Kern is Editor of the Controlling Pilot Error Series and a former lieutenant colonel who created the United States Air Force s human factors training program He also wrote three best selling books on aviation for McGraw Hill

Aircraft Command Techniques: Gaining Leadership Skills to Fly the Left Seat Sal J Fallucco, 2018-02-06 This title was first published in 2002 A comprehensive examination of the characteristics of the experienced captain Each chapter begins with an appropriate and relevant anecdote that is analogous to the chapter s main theme It then progresses to the chapter s main objective and finishes with a scenario that the reader must try to solve from a captain s perspective Immediately following each of these scenarios the reader is presented with a number of considerations that should be evaluated when solving the problem The intent is to help the pilot practice thinking as a captain Offering a wealth of practical guidance this book is an ideal platform for pilots or indeed anyone interested in how leadership and management skills are used to achieve excellence The reader should gain important command skills and learn how to apply these skills to routine and unexpected situations in the same way in which an experienced captain would

Aeronautical Decision Making for Commercial Pilots Richard S. Jensen, 1988 Aviation accident data indicate that the majority of aircraft mishaps are due to judgement error This training manual is part of a project to develop materials and techniques to help improve pilot decision making Training programs using prototype versions of these materials have demonstrated substantial reductions in pilot error rates The result of such tests were statistically significant and ranged from approximately 10% to 50% fewer mistakes This manual is designed to explain the risks associated with commercial flying activities the underlying behavioral causes of typical accidents and the effects of stress on pilot decision making It provides a means for the individual pilot to develop an Altitude Profile through a self assessment inventory and provides detailed explanations of pre flight and in flight stress management techniques The

assumption is that pilots receiving this training will develop a positive attitude toward safety and the ability to effectively manage stress while recognizing and avoiding unnecessary risk This manual is one of a series on Aeronautical Decision Making prepared for the following pilot audiences 1 Student and Private 2 Commercial 3 Instrument 4 Instructor 5 Helicopter 6 Multi Crew Keywords Human factor Human performance Aviation safety Aviation training Pilot error Judgement Decision making Commercial pilots Professional pilots kt **Pilots in Command** Kristofer Pierson,2014 **Controlling Pilot Error: Culture, Environment, and CRM (Crew Resource Management)** Tony T. important to a pilot before we can control an airplane with the necessary skills and consistency we also need to understand how to control ourselves as well as humanly possible
