The Routledge Companion to Children's Literature and Culture Claudia Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30. Focusing on significant and cutting-edge preoccupations within children's literature scholarship, *The Routledge Companion to Children's Literature and Culture* presents a comprehensive overview of print, digital, and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature. Describes the major media formats and genres for texts expressly addressing children. Considers the production, distribution, and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content. Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed other, and in recent decades increasingly foregrounding identities once lacking visibility and voice. Explores the historical evolutions and transregional contacts and interconnections in the long process of the formation of global children's literature, highlighting issues such as retranslation, transnationalism, transculturality, and new digital formats for considering cultural crossings and renegotiations in the production of children's literature. Methodically presented and contextualized, this volume is an engaging introduction to this expanding and multifaceted field.

Translating Children's Literature Gillian Lathey, 2015-07-24. *Translating Children's Literature* is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature, from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering narrative style and the challenges of translating the child's voice; the translation of cultural markers for young readers; translation of the modern picture book; dialogue, dialect, and street language in modern children's literature; read-aloud qualities, wordplay, onomatopoeia, and the translation of children's poetry; retranslation, retelling, and reworking; the role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with

published translators of children's literature as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students.
