previously unpublished lectures Edgar Wind and Modern Art reveals the extent and seriousness of Wind's thinking about modern art and how it was bound up with theories about art and knowledge that he had developed during the 1920s and 30s. Wind's ideas are placed in the context of a closely connected international cultural milieu consisting of some of the leading artists and thinkers of the twentieth century. In particular, the book discusses in detail his friendships with three significant artists: Pavel Tchelitchew, Ben Shahn, and R. B. Kitaj. In the process, the existence of an alternative to the prevailing formalist approach of Alfred Barr and Clement Greenberg to modern art based on the enduring importance of the symbol is revealed.

American Printmakers of the Twentieth Century Donald E. Smith, 2004 **Graphic Works of Max Klinger** Max Klinger, 2012-07-31 Reproduced directly from original portfolio editions, these 74 etchings by a precursor of the Surrealist movement portray fantasies about love and death, sexual psychoses, fetish obsessions, and bizarre nightmares. **Ben Shahn, On Nonconformity** Laura Katzman, 2025-04-22 A richly illustrated new exploration of the painting, photography, and illustration of the politically progressive American artist Ben Shahn. *On Nonconformity* offers a fresh and wide-ranging account of the work of Ben Shahn, 1898-1969, a Jewish immigrant from Russian-controlled Lithuania who became one of America's most prominent and prolific social viewpoint artists from the Great Depression through the Vietnam War. Revealing why Shahn remains so relevant today, the book examines his commitment to progressive political causes, from combating fascism to fighting for civil rights. Incorporating international perspectives, it investigates his World War II poster art, labor-related work, and engagement in postwar artistic debates. It brings new insights to Shahn's social realist and documentary styles and their evolution into allegorical, lyrical, and often abstract idioms that embrace the philosophical and the spiritual. And it demonstrates the underappreciated complexity of Shahn's layered visual language and how he experimented with modernist conceptual strategies, often involving photography to create his paintings, murals, drawings, prints, posters, illustrated books, and commercial designs. Shahn's guiding credo, formulated in the Cold War, asserted that nonconformity was the precondition for all significant art and great social change. *Ben Shahn: On Nonconformity* illuminates why the artist's work should be seen as a series of nonconformities driven by his steadfast dedication to social justice and humanistic values.
