*Music* Ted Gioia, 2019-10-15 A dauntingly ambitious obsessively researched Los Angeles Times global history of music

that reveals how songs have shifted societies and sparked revolutions. Histories of music overwhelmingly suppress stories of the outsiders and rebels who created musical revolutions and instead celebrate the mainstream assimilators who borrowed innovations, diluted their impact and disguised their sources. In *Music A Subversive History*, Ted Gioia reclaims the story of music for the riffraff insurgents and provocateurs. Gioia tells a four thousand year history of music as a global source of power change and upheaval. He shows how outcasts, immigrants, slaves and others at the margins of society have repeatedly served as trailblazers of musical expression, reinventing our most cherished songs from ancient times all the way to the jazz, reggae and hip hop sounds of the current day. *Music A Subversive History* is essential reading for anyone interested in the meaning of music from Sappho to the Sex Pistols to Spotify.

**Five Straight Lines** Andrew Gant, 2021-11-18 Fascinating Composer Andrew Gant is a masterful guide introducing readers to the major players and key themes of an entrancing topic. BBC History Magazine. Whether you prefer Baroque or pop, Theremins or violins, the music you love and listen to shapes your world. But what shaped the music? Ranging across time and space, this book takes us on a grand musical tour from music's origins in prehistory right up to the twenty first century. Charting the leaps in technology, thought and practice that led to extraordinary revolutions of music in each age, the book takes us through medieval Europe, Renaissance Italy and Jazz era America to reveal the rich history of music we still listen to today. From Mozart to McCartney, Schubert to Schoenberg, Professor Andrew Gant brings to life the people who made the music, their techniques and instruments as well as the places their music was played, from sombre churches to rowdy taverns, stately courts to our very own homes.

**Declassified** Arianna Warsaw-Fan Rauch, 2022-10-11 A refreshingly fun guide that reads as if you're a fly on the wall in conservatory auditions, cutthroat competitions and the obsessive practice routines of professional musicians. The New York Times. Arianna Warsaw-Fan Rauch's life long fascination with classical music has taken her through Juilliard and into the shiny world of symphony halls and international concert tours. She's loved classical music her whole life. But she's also hated classical music her whole life. After all, if you can like Beyoncé without liking Bieber, you can certainly like Brahms without liking Bach, especially since they were born 148 years apart and the thing we call classical music is really just centuries of compositions shoved into one hodgepodge of a genre. In *Declassified*, Warsaw-Fan Rauch blows through the cobwebs of elitism and exclusion and invites everyone to love and hate this music as much as she does. She offers a backstage tour of the industry and equips you for every listening scenario, covering the 7 main compositional periods, even the soul-crushingly depressing Medieval period, a breakdown of the instruments and their associated personality types, apologies to violists and conductors, what it's like to be a musician at the highest level, it's hard how to steal a Stradivarius and make no money in the process, and when to clap during a live performance, also when not to. *Declassified* cheekily demystifies the world of High Art while making the case that classical music matters perhaps now more than ever.
