O Instituto, 1866 Migrant Frontiers Anna Tybinko, Lamonte Aidoo, Daniel F. Silva, 2023-11-16 This book examines today's massive migrations between Global South and Global North in light of Spain and Portugal's complicated colonial legacies. It offers unique material on Spanish speaking and Lusophone Africa in conjunction to transatlantic and transpacific perspectives encompassing the Americas, Asia and the Caribbean. For the first time these are brought together to explore how movement within and beyond these former metropolises came to define the Iberian Peninsula. The collection is composed of papers that study human mobility in Spanish speaking or Lusophone contexts from a myriad of approaches. The project thus sheds critical light on migratory movement within the Luso-Hispanic world and also beyond its traditional geo-linguistic parameters through an eclectic and interdisciplinary collection of essays traversing anthropology, literary studies, theater and popular culture. Beyond focusing solely on the geo-political limits of Peninsular space, several essays interrogate the legacies of Iberian colonial projects in a global perspective and how the discursive underpinnings of these impact the politics of migration in the broader Luso-Hispanic world.
