On the right, the white, cylindrical structure of the Apollo 11 Lunar Module is shown against the blackness of space. A bright, glowing sun or star is positioned in the upper left quadrant, casting a lens flare across the scene. The title "Apollo 11 Quest" is centered in the upper half of the image. "Apollo 11" is written in a white, sans-serif font, while "Quest" is in a teal, sans-serif font. A thin, white, curved line arches over the text, resembling a stylized orbit or a decorative flourish.

Quest For Apollo:

Quest for Apollo Michael Lahey, 1989 His name was Virgil I met him in the woods when I was fleeing from a wolf He looked around fifty but said he d been that age for about 2 000 years ever since he d died And that was the part of his story that didn t sound too crazy When I told him that I was a writer and my name was Delbert Frederick Alderini the guy just about flipped out said I was the one he d been waiting for that I had to come with him to see Diana the goddess Diana Of course I didn t believe him but it seemed like there might be a story in it so I went Diana was a goddess alright a real beauty She was working as a waitress in a restaurant in Italy s Aventine hills and when she gave me her pitch how could I resist She said her brother Apollo had been condemned for helping humans too much His punishment was to be reincarnated over and over again as a doomed hero with no memory of his true identity But this time around things were different If Virgil and I couldn t find Apollo within the next six days and free him from this cycle not only Apollo but everyone would go up in a total nuclear conflagration So what else could I do but try to save the world Back cover *The Champion of Light, Book II; Apollo's Quest* J.W. Professor Anderson shows how the study and teaching of politics may flourish under certain conditions and falter or fail under others Throughout the book he demonstrates the truth of what Aristotle said about the study of politics In this subject as in others the best method of investigation is to study things in the process of development from the beginning In early chapters the author examines three literate societies of the ancient Near East Mesopotamia Egypt and Israel He then discusses in the major section of the book the accomplishments of the Greeks who with their many self governing city states and their secular attitude toward politics opened up the study of politics in a realistic way Here he gives Aristotle the most prominent role and finds Plato less important than most scholars might expect Finally he traces the decline of the political study and teaching in the Hellenistic period and in the time of the Roman Empire The volume will be of particular interest not only to political scientists but to historians philosophers and classical scholars HADES Hash Blink,Thomas
