La rencontre du temps et de l'espace Samia Naïm, 2006 Cet ouvrage s'attache à l'expression et aux manifestations simultanées du temps et de l'espace en focalisant l'attention sur les faits de langue et de culture qui révèlent des transitions des rencontres et des intersections entre ces univers notionnels. À partir de l'étude de langues afro-asiatique, Niger, Congo, dravidienne, amérindienne, de cultures et d'organisations sociales, rurale, citadine, nomade, pour l'essentiel non européennes, il participe au débat concernant l'orientation que peuvent prendre ces échanges. Qu'en est-il du processus d'emprunt métaphorique qui dans les langues européennes paraît opérer de façon préférentielle de l'espace vers le temps ? Y a-t-il des cultures moins spatialisantes que d'autres ? Quelle place accorder aux facteurs énonciatifs et pragmatiques dans l'appréhension de la relation temps-espace ? C'est en prenant appui sur des formes variées de productions orales : récits d'itinéraires réels ou imaginaires, entretiens, fragments de littérature orale recueillis sur leurs terrains, que les contributeurs à cet ouvrage, linguistes et anthropologues, prennent part au débat.

**Revue Des Langues Romanes, Publ. Par La Société Pour L'Etude Des Langues Romanes**, 1887    **The Art and Genius of Anne Hébert** Janis L. Pallister, 2001 This book shows through criticism the richness, the complexity and the far-reaching significance of the writings of Anne Hébert, the Québécois novelist and poet who first achieved recognition in the 1940s and 50s. The writings by such notables as Gaetan Brulotte, Neil Bishop, Annabelle Rea, Lori Saint Martin, Roseanna Dufault and many others are variously in English and in French. Prefaced by renowned Hébertian scholar Janet Pallister and introduced by Pallister's essay on the life and accomplishment of Anne Hébert, the work is accompanied by a large bibliography of the works of Anne Hébert.

**Building Capacity: Using TEFL and African Languages as Development-oriented Literacy Tools** M. Mutaka, 2008-02-15 Building Capacity promotes the vision that the teaching of African languages can best achieve its aim of boosting the economic and cultural development of the Africans if they are made to work in synergy with a revamping of the contents of international languages that will be taught within the frame of a development-oriented literacy curriculum. Great emphasis is put on the oral skills in the use of African languages as they are to serve as a link between the community and the school for the ultimate revitalization of the positive aspects of African cultures in a world beset by globalization. The book is supplemented with a sample of texts in the appendix that are meant to be a bridge between formal texts taught in classrooms and literacy texts that can raise the genuine interests of the local populations in that they address their

immediate needs Among the possible topics language teachers are encouraged to explore in their classes are those concerning economic development but also such issues as health education the environment food security and conflict resolution In the face of the growing interest in the use of African Languages by Africans as symbols of personal and cultural identity and as means of empowering the rural communities in the enterprise of national development the need for a methodologically appropriate manual to guide the teaching and learning of African languages becomes urgent This book is a timely response predicated on a policy of the symbiotic use of African languages along with partner foreign official languages to attain a balanced level of economic and socio cultural development It is based on a compendium of well thought out principles geared towards a rapid acquisition of written and oral language skills that are congruent with and reflect the socio cultural and economic concerns of the linguistic community Beban Sammy Chumbow Professor of Linguistics University of Yaounde I Among the numerous proposals in this book is the necessity for Africans and I would add for the communities of Asia and Latin America to re think the contents of their language courses and assign them an objective which aims at the integral development of their communities It is indeed imperative that these courses reflect clear objectives of seeking social cultural and economic developments that harmonize with African Asian and Latin American values that are deep rooted in their respective various cultures Jean Pierre Angenot Professor of Linguistics Federal University of Rondônia Porto Velho Brazil
