Burn, Maris G. Martinsons, 1997-09-01 The twenty first century is frequently cited as the Asia Pacific Century due to the phenomenal success of Asian countries over the last three decades Nowhere has this been more visible than in Hong Kong which became the first Newly Industrialized Economy to enter the world's top ten trading communities in 1991 This book describes the current state of information technology IT exploitation in Hong Kong and the role of IT in the rapid advancement of the Asia Pacific region It raises issues such as the impact of politics culture and societal growth on IT effectiveness but does not try to provide all the answers and is therefore of interest to both business and IT managers in global organizations or companies operating in cross cultural settings It is also invaluable for students of business management and IT who will play a strategic role in the future development of the new global economy Hong Kong Invaded! A 'Ninety-Seven Nightmare Gillian Bickley, 2001-04-01 No It is not what you think The year is 1897 not 1997 This is a fictional account of Hong Kong being invaded by the combined forces of France and Russia This visionary novel by an anonymous author has been forgotten for a hundred years Yet when published as *The Back Door* during the negotiations between Imperial China and Great Britain over the lease of the New Territories the story aroused serious British fears about the possibility of defending Hong Kong against attack Copies were then to be found on the desks of British officials in London Matthew Nathan who became Governor in 1904 was advised to read the book But it was not only in 1897 that the book was accurate in its observations on military tactics There are many intriguing parallels with the Christmas 1941 invasion by the Japanese and the role of the Hong Kong Volunteers at that time Three strategically vulnerable locations identified in *The Back Door* were considered for attack in 1941 Had the Japanese read this fictional battle when plotting their manoeuvres If so *The Back Door* not only taught one way to defend Hong Kong but also another to attack it **Colonial Hong Kong and Modern China** Pui-tak Lee, 2005-09-01 Essays examine the relationship between Hong Kong and China Streets Jason Wordie, 2007-01-01 The book starts with a district familiar to all visitors Tsim Sha Tsui but then moves into the hinterland of Kowloon taking the reader and walker far beyond the well known streets of tourist oriented shops and hotels *Streets Exploring Kowloon* like its companion *Streets Exploring Hong Kong Island* guides the reader with maps and travel

Goodstadt, 2005-01-01 Challenging the wisdom about the way capitalism and colonialism joined forces to transform Hong Kong into one of the world's great cities this book deploys case studies of the clash of interests between alien colonials and their Chinese constituents and the conflict between a pro business government and its political and social responsibilities **Let There Be Light** Mark L. Clifford, 2023-07-18 The remarkable success of twentieth century Hong Kong was driven by electricity The British colony's stunning export driven economic growth its status as a Cold War capitalist dynamo its energetic civil society its alluring urban modernity all of these are stories of electricity's transformative power *Let There Be Light* is a groundbreaking history of electrification in Hong Kong Mark L Clifford traces how a power company and its visionary founder jumpstarted Hong Kong's postwar economic rise and set in motion far reaching political and social change against the backdrop of Hong Kong's shifting relations with the People's Republic of China and the United Kingdom Clifford examines avowedly laissez faire Hong Kong's attempt to nationalize electricity companies and the longer term implications of debates over the power supply for citizen activism and the development of civil society government involvement in tackling housing and other social issues and state controls on private businesses Clifford explores the effects of electrification on both grand politics and daily life In the geopolitical struggle of the Cold War Hong Kong became an explicitly anti Communist showcase of production and consumption Its bright lights and neon signs stood in contrast to the darkness and drabness of neighboring China Electricity transformed people's everyday lives allowing children to study at night streets to be lit and shops in a self consciously commercial mecca to stay open late Offering new perspectives on twentieth century Hong Kong *Let There Be Light* reveals electricity as a catalyst of modernization *Empires of Panic* Robert Peckham, 2015-01-01 *Empires of Panic* is the first book to explore how panics have been historically produced defined and managed across different colonial imperial and post imperial settings from early nineteenth century East Asia to twenty first century America Contributors consider panic in relation to colonial anxieties rumors indigenous resistance and crises particularly in relation to epidemic disease How did Western government agencies policymakers planners and other authorities understand deal with and neutralize panics What role did evolving technologies of communication play in the amplification of local panics into global events Engaging with these questions the book challenges conventional histories to show how intensifying processes of intelligence gathering did not consolidate empire but rather served to produce critical uncertainties the uneven terrain of imperial panic Robert Peckham is associate professor in the Department of History and co director of the Centre for the Humanities and Medicine at the University of Hong Kong Charting the relays of rumor and knowledge that stoke colonial fears of disease disorder and disaster *Empires of Panic* offers timely and cautionary insight into how viscerally epidemics inflame imperial anxieties and how words and their communication over new technologies accelerate panic rally government intervention and unsettle and

Digital Aesthetics Sean Cubitt, 1998-10-15 The aesthetic nature and purposes of computer culture in the contemporary world are investigated in this book Sean Cubitt casts a cool eye on the claims of cybertopians tracing the globalization of the new medium and enquiring into its effects on subjectivity and sociality Drawing on historical scholarship philosophical aesthetics and the literature of cyberculture the author argues for a genuine democracy beyond the limitations of the free market and the global corporation Digital arts are identified as having a vital part to play in this process Written in a balanced and penetrating style the book both conveniently summarizes a huge literature and sets a new agenda for research and theory

Urban History 19:2 Kajal Lahiri, Geoffrey H. Lahiri, 1992-12-10

A Stormy Petrel: The Life and Times of John Pope Hennessy P. Kevin MacKeown, 2019-11 Many words have been used to describe John Pope Hennessy the former governor of Hong Kong Controversial is perhaps the briefest way to outline his character Yet we may be guilty of ascribing modern ideas to our understanding of characters of the past An Irish Catholic raised during the age of empire and rising nationalism a devout Tory and Disraeli follower a believer in both the benefits of empire and a patron of local talent in his postings it is easy to view Pope Hennessy as a man of contradictions This volume

traces Pope Hennessy's history from his early beginnings in famine Ireland to his attempts to rise through the ranks in London. It goes on to cover his early postings to Labuan, West Africa, and of course Hong Kong, as well as his final days with his family. His actions and his personality are laid bare for readers to form their own opinions of one of Hong Kong's most enigmatic governors. As to Sir J. P. Hennessy, the less said the better. His acts speak powerfully enough. The centre of his world was he himself. But with all the crowd of dark and bright powers that were wrestling within him, he could not help doing some good. Dr Ernst Johann Eitel, Missionary sinologist and John Pope Hennessy's private secretary. François Ravary SJ and a Sino-European Musical Culture in Nineteenth-Century Shanghai David Francis Urrows, 2021-09-23. This book reveals the story of François Ravary, Jesuit missionary, musician, and organ builder. The mastermind behind the construction of the bamboo organs of nineteenth-century Shanghai. Ravary's unpublished letters from China present a vivid picture of the excitement and crises surrounding the Roman Catholic mission in the often violent integration of global space of this time. Focusing on an individual life, this study adds needed perspective to histories of the treaty port era. By shifting the inquiry towards a nuanced empirical and refocused evaluation of the landscape, Ravary is revealed as a humanist in the Christian tradition, curious about Chinese society and culture, as well as the force behind China's first brass band, first school orchestra, and other landmarks of Sino-European musical convergence. This book is a must-read for anyone interested in nineteenth-century China studies, cultural histories, and the diffusion of Western art practices. China and Denmark Kjeld Erik Brødsgaard, Mads Kirkebæk, 2001. This comprehensive study analyzes in detail the evolving political, economic, and diplomatic relationships between China and Denmark since their first contact in 1674. It is an important contribution to the growing literature on China's relations with the West since the beginning of the modern period. Non-Danes will be interested in how the unique non-imperialistic Danish approach to China has shaped a relationship quite different from the patterns of domination and conflict that have characterized the relations between the Middle Kingdom and the traditional great powers of the West.

Whither Hong Kong Albert H. Yee, 1999. *Whither Hong Kong* relates the rich history of the former British colony from 1841 to 1999 and discusses its prospects. This book brings together seven leaders in their fields who have intimate, unique knowledge of Hong Kong. They follow the territory after it became a British colony after the first Opium War (1840-1842), Japan's World War II attack and occupation, economic development, democracy movements, the psychology of the Chinese, and more. This book reviews and analyzes British rule and colonialism, Sino-British relations, American involvement, the HK people, and their interface with Westerners, as well as their drive to achieve and maintain their traditions. It includes assessments for Hong Kong's continued growth and prosperity, autonomy, democracy, and autocracy. Many themes are stressed, including autocracy and humanism in China, and Hong Kong's history and the indomitable spirit of the Chinese people. Singapore and Macau are compared to Hong Kong.
