Red Vienna Experiment In Working Class Culture 1919 1934:

Red Vienna Helmut Gruber,1991 From 1919 to 1934 the Socialist government in Vienna sought to create a comprehensive working class culture striving to provide a foretaste of the socialist utopia in the present In Red Vienna Gruber critically examines the impact of this experiment in all areas of life from massive public housing projects and health and education programs to socialist parades festivals and sporting events designed to create a new working class The Socialist program faced enormous obstacles arising from the exaggerated expectations of the socialist leaders and their conventional cultural vision from the resistance of workers and from the competition of commercial and mass culture Gruber then evaluates the limited and partial success of the Viennese model clearly the most comprehensive in the West and a democratic alternative to the Bolsheviks experiment in Soviet Russia to pose general questions about attempts to fashion culture from above *The Red Vienna Sourcebook* Rob McFarland,Robert B. McFarland,Georg Spitaler,Ingo Zechner,2020 An encyclopedic selection of original documents from the Austrian capital s pathbreaking progressive interwar period translated and with contextualizing introductions and commentaries *Work and Struggle* Paul Le Blanc,2011-01-26 *Work and Struggle* Voices from U S Labor Radicalism focuses on the history of U S labor with an emphasis on radical currents which have been essential elements in the working class movement from the mid nineteenth century to the late twentieth century Showcasing some of labor s most important leaders *Work and Struggle* offers students and instructors a variety of voices to learn from each telling their story through their own words through writings memoirs and speeches transcribed and introduced here by Paul Le Blanc This collection of revolutionary voices will inspire anyone interested in the history of labor organizing *Engineered to Sell* Jan L. Logemann,2019-11-20 The mid twentieth century marketing world influenced nearly every aspect of American culture music literature politics economics consumerism race relations gender and more In *Engineered to Sell* Jan L Logemann traces the transnational careers of consumer engineers in advertising market research and commercial design who transformed capitalism from the 1930s through the 1960s He argues that the history of marketing consumer goods is not a story of American exceptionalism Instead the careers of immigrants point to the limits of the Americanization paradigm Logemann explains the rise of a dynamic world of goods and examines how and why consumer engineering was shaped by transatlantic exchanges From Austrian psychologists and little known social scientists to the illustrious Bauhaus artists the emigr s at the center of this story illustrate the vibrant cultural and commercial connections between metropolitan centers Vienna and New York Paris and Chicago Berlin and San Francisco By focusing on the transnational lives of emigr consumer researchers marketers and designers *Engineered to Sell* details the processes of cultural translation and adaptation that mark both the midcentury transformation of American marketing and the subsequent European shift to American consumer capitalism *Creating German Communism, 1890-1990* Eric D. Weitz,2021-04-13 Eric Weitz presents a social and political history of German communism from its beginnings at the end of the nineteenth

century to the collapse of the German Democratic Republic in 1990 In the first book in English or in German to explore this entire period Weitz describes the emergence of the Communist Party of Germany KPD against the background of Imperial and Weimar Germany and clearly explains how the legacy of these periods shaped the character of the GDR to the very end of its existence In Weimar Germany social democrats and Germany's old elites tried frantically to discipline a disordered society Their strategies drove communists out of the workplace and into the streets where the party gathered supporters in confrontations with the police fascist organizations and even socialists and employed workers In the streets the party forged a politics of display and spectacle which encouraged ideological pronouncements and harsh physical engagements rather than the mediation of practical political issues Male physical prowess came to be venerated as the ultimate revolutionary quality The KPD's gendered political culture then contributed to the intransigence that characterized the German Democratic Republic throughout its history The communist leaders of the GDR remained imprisoned in policies forged in the Weimar Republic and became tragically removed from the desires and interests of their own populace

Socialism before Sanders Jake Altman, 2019-06-13 The early years of the twentieth century are often thought of as socialism's first heyday in the United States when the Socialist Party won elections across the country and Eugene Debs ran for president from a prison cell winning more than 900 000 votes Less well known is the socialist revival of the 1930s Radicalized by the contradiction of crushing poverty and unimaginable wealth that existed side by side during the Great Depression socialists built institutions organized the unemployed extended aid to the labor movement developed local political movements and built networks that would remain active in the struggle against injustice throughout the twentieth century Jake Altman brings this overlooked moment in the history of the American left into focus highlighting the leadership of women the development of the Highlander Folk School and Soviet House and the shift from revolutionary rhetoric to pragmatic reform by the close of the decade As another socialist revival takes shape today this book lays the groundwork for a more nuanced history of the movement in the United States

Austria 1867-1955 John W. Boyer, 2022 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legatees of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance
