Reflection-in-Motion Jaclyn Fiscus-Cannaday, 2025-05-23 Reflection in Motion considers how reflective practice is embedded in daily course happenings centering the experiences of students and teachers in Minority Serving Institutions to amplify underrepresented viewpoints about how reflection works in the writing classroom Jaclyn Fiscus Cannaday examines how its availability is subject to teacher student power dynamics the literacies welcomed or not in the class the past and present pedagogies that students are engaging with and attending to and the interactions among humans materials and emotions within the rhetorical context She adopts an intersectional feminist perspective for an inclusive view of how practitioners name identify and practice reflection in the everyday moments of writing classrooms Fiscus Cannaday invokes a Black feminist qualitative research method that Venus Evans Winters calls a mosaic When researchers collect both traditional and nontraditional texts to create a full view of students and teachers interviews at three institutions a Hispanic Serving Institution a Historically Black College and University and an Asian American Native American Pacific Islander Serving Institution she finds that practitioners often build definitions from past experiences with reflection and then use those definitions as terministic screens to decide if an activity can be named identified and practiced as reflection These definitions hold different rhetorical effects reflection for introspection reflection for learning reflection for mindfulness and reflection for awareness Reflection is used for these different rhetorical effects but because classrooms so often focus on the Westernized view and its emphasis on growth reflection has the underused and undertheorized potential rhetorical effect of helping students investigate their identities and positionalities acknowledge deep rooted ideologies and consider new perspectives so they can better work across difference Reflection in Motion will inspire teachers and writing program administrators to listen to how students define and practice reflection and why thus making room for more capacious definitions of reflection and student centered practices of what reflection can do and be

Reflection Groups and Invariant Theory Richard Kane, 2001-06-21 Reflection groups and invariant theory is a branch of mathematics that lies at the intersection between geometry and algebra The book contains a deep and elegant theory evolved from various graduate courses given by the author over the past 10 years *The Mathematics of Shock Reflection-Diffraction and von Neumann's Conjectures* Gui-Qiang G Chen, Mikhail Feldman, 2018-02-27 This book offers a survey of recent developments in the analysis of shock reflection diffraction a detailed presentation of original mathematical proofs of von Neumann's conjectures for potential flow and a collection of related results and new techniques in the analysis of partial differential equations PDEs as well as a set of fundamental open problems for further development Shock waves are fundamental in nature They are governed by the Euler equations or their variants generally in the form of nonlinear conservation laws PDEs of divergence form When a shock hits an obstacle shock reflection diffraction configurations take shape To understand the fundamental issues involved such as the structure and transition criteria of different configuration patterns it is essential to establish the

global existence regularity and structural stability of shock reflection diffraction solutions This involves dealing with several core difficulties in the analysis of nonlinear PDEs mixed type free boundaries and corner singularities that also arise in fundamental problems in diverse areas such as continuum mechanics differential geometry mathematical physics and materials science Presenting recently developed approaches and techniques which will be useful for solving problems with similar difficulties this book opens up new research opportunities

has critics deriding the educational standards at institutes of higher education while concurrently lauding alternative programs that do not have to adhere to the same rigorous teacher certification requirements English teacher educators are now being asked to design programs soften requirements and recruit and mentor teacher candidates to a profession that in the past certified more new English teachers than it could employ The chapters in this book explore what it means to educate and be an English teacher educator under these conditions
