The New Hampshire Primary And The American Electoral Process Niall Palmer, 2018-02-19 New Hampshire is the subject of Palmer's book precisely because it serves as the first presidential primary every four years Many

critics of the New Hampshire primary fault it for being too arcane too unrepresentative and too quixotic to use as a gatekeeper of who becomes President Palmer went to New Hampshire expecting to gather research that argued against New Hampshire as first primary As he finished he realized his findings pointed out the opposite that in fact and deed New Hampshire was as good a place to start the primary races as any other No single state is representative The retail politics that aspirants face in New Hampshire is a very useful winnowing device in which a candidate must actually come face to face with real voters who more often than not make a study of the issues and policies that they raise in their questions *The Rules and Politics of American Primaries* Andrew E. Busch, 2019-11-08 Provides an invaluable resource for scholars students and political observers who want a comprehensive picture of the past and present of the U S presidential nominating system across every state In 2020 the parties will again nominate their candidates for president Those nominations will play out in a complicated system of federal law state law national party rules state party rules and informal norms that have developed over decades This resource provides a roadmap for understanding the rules of the game and the ways in which they impact elections and politics across the United States This reference work is organized in two parts Part I consists of a series of short thematic essays discussing topics such as what primaries and caucuses are what the difference between open and closed primaries is varying methods used by the parties for delegate selection and how campaign finance works in the primaries Part II consists of a state by state description of recent primary caucus history and the methods currently used for delegate selection by Democrats and Republicans in each state

Strategic Decision-Making in Presidential Nominations Kenny J. Whitby, 2014-01-01 Seeks to understand and explain the behavior of party elites during the 2008 Democratic Party presidential race What is the dominant force in presidential nomination campaigns Are nomination outcomes decided largely by the political party or by the candidates and their activities In Strategic Decision Making in Presidential Nominations Kenny J Whitby aims to provide some answers to these important questions focusing on the closely contested 2008 race between Senators Hillary Clinton and Barack Obama It was this race that spotlighted the role played by superdelegates the unpledged party elites who were added to the nomination process in the 1980s Whitby's central argument is that superdelegates are strategic actors and their endorsements are a response to a variety of demographic institutional and campaign factors While some weigh in early with an endorsement many adopt a wait and see approach Using a novel framework generally known as survival analysis Whitby provides us with a method for understanding when and

why party elites decide to chime in on their presidential nomination campaign **Choosing Our Choices** Robert E. DiClerico, James W. Davis, 2000 Probably no feature of the American political system has been subject to more sustained criticism over the last twenty five years than the process by which we choose our presidents In *Choosing Our Choices* Robert E DiClerico and James W Davis debate the question should we retain the present primary centered direct democracy method in selecting presidential candidates or should we return to a representative decision making process to nominate our candidates This timely and thought provoking text offers the reader a concise yet comprehensive analysis of the presidential nominating system arguments for and against the current system and supplemental documents and essays for further reading *Choosing Our Choices* will be an invaluable resource for students and scholars interested in exploring how Americans choose their leaders *The Imperfect Primary* Barbara Norrander, 2010-08-26 Recognized as a Choice Outstanding Academic Title in 2011 Many people complain about the complex system used to nominate presidents The system is hardly rational because it was never carefully planned Because of the dissatisfaction over the idiosyncrasies of the current system periodic calls arise to reform the presidential nomination process But how are we to make sense of the myriad complexities in the system as well as in the calls for change In *The Imperfect Primary* political scientist Barbara Norrander explores how presidential candidates are nominated discusses past and current proposals for reform and examines the possibility for more practical incremental changes to the electoral rules Norrander reminds us to be careful what we wish for reforming the presidential nomination process is as complex as the current system Through the modeling of empirical research to demonstrate how questions of biases can be systematically addressed students can better see the advantages disadvantages and potential for unintended consequences in a whole host of reform proposals
