Refugees Environment And Development:

Refugees, Environment and Development Richard Black, 2018-10-08 Refugees Environment and Development is concerned with the complex interrelationships between forced migration natural resource management and sustainable development The book challenges the growing rhetoric that refugees cause environmental degradation and that environmental decline is promoting a new wave of environmental refugees Drawing on examples from Africa Asia and Latin America as well as detailed case studies of the Rwandan emergency of 1994 96 and lesser known refugee movements to Guinea and Senegal in West Africa the book argues against a neo Malthusian view of the relationship between population environment and migration The author explores alternative approaches to the dynamic processes of social and environmental change in refugee situations This is an ideal text for undergraduate and postgraduate students concerned with environment development and migration studies as well as policy makers and practitioners in the field Refugees, Environment and Development

Climate, Environmental Hazards and Migration in Bangladesh Max Martin, 2017-07-20 The apocalyptic visions of climate change that are projected in the media often involve extreme weather events disasters and mass migration of poor people This book takes a critical look at this notion drawing on research in Bangladesh a country located at the heart of debates on climate change and migration This book argues that rather than leading to dramatic events climatic and environmental impacts often cause incremental changes in people's habitats and livelihoods making them migrate in search of better places and income With or without climate change climatic and environmental factors can impoverish people and drive displacement and migration especially in the global South These influences including disasters need not necessarily make people move but instead sometimes trap the poorest and the most vulnerable people in their places exposed to hazards or make them migrate to even riskier places such as crowded and flood prone urban slums This book argues that restrictions placed on people's mobility options could increase their vulnerability and favours proactive migration policies This timely contribution explains the climate hazard migration nexus in an accessible engaging language for students of geography development studies politics and environmental studies as well as

humanitarian and development practitioners and policymakers

Environment, Forced Migration and Social

Vulnerability Tamer Afifi, Jill Jäger, 2010-08-05 This book is one of the outputs of the conference on Environmental Change Forced Migration and Social Vulnerability EFMSV held in Bonn in October 2008 Migration is one of the oldest adaptation measures of humanity Indeed without migration the multitude of civilizations and interactions between them peaceful and otherwise would be hard to imagine The United Nations UN led global dialogue on migration is a clear sign that governments and the specialized UN agencies and bodies have recognized the need to view govern manage and facilitate migration to mitigate its negative effects and to capitalize on the positive ones It is a common expectation among experts that environmentally induced migration will further increase in the decades to come Hence next to the political economic ethnic social financial humanitarian and security aspects of migration the environmental component should urgently be considered in the ongoing international dialogue on migration This need is also a challenge Without appropriate scientific knowledge assessment definitions and classifications the intergovernmental frameworks would not be able to deal with these complex phenomena The Five Pronged Approach as formulated by the United Nations University UNU may serve as a framework to identify the additional dimensions of this challenge next to and actually simultaneously with the scientific one **The Elgar**

Companion to Development Studies David Clark, 2006 If handbooks can be inspiring this is it Like a true companion it takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable Dame Marilyn Strathern University of Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Toye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major

new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman *The Environment* Chris C. Park,2001 The second edition of this fully integrated introductory text for courses in environmental studies and physical geography builds on the resounding success of the first edition providing a comprehensive account of modern environmental issues and the physical and socio economic framework in which they are set It explains the principles and applications of the different parts of the Earth's system the lithosphere atmosphere hydrosphere and the biosphere and explains the interrelationships within and between these systems It explores the present environmental crisis examines how the planet Earth fits into the wider universe and explores human environment interactions

Refugees Worldwide Doreen Elliott,Uma A. Segal,2012-08-03 Utilizing international perspectives this unprecedented collection of essays from leading authorities on refugee studies spotlights the realities and challenges of the global refugee population With increasing changes in the socio political climate of the world as well as with the rising numbers of natural disasters people of all ethnicities and nationalities are frequently forced from their homes and their homelands While there is a substantial body of work that addresses refugee policies post traumatic stress disorder and other specific issues there have been few attempts to understand refugee health or comprehend overall refugee adaptation until now This is the first work to address refugee issues worldwide addressing the psychological health human rights political public policy law economic social and personal aspects of this universal problem Refugees Worldwide also includes examples of first person refugee stories from around the world eye opening information not available in any other work Drawing on the expertise of myriad international researchers theoreticians and practitioners from representative nations around the world this four volume set effectively speaks to a number of refugee issues from a truly global perspective *Research Handbook on the Institutions of Global Migration Governance* Antoine Pécoud,Hélène Thiollet,2023-07-01 Drawing together the work of leading researchers from various disciplines and backgrounds this illuminating Research Handbook contributes to a revitalised understanding of migration governance It introduces novel debates regarding how actors and institutions shape significant migration dynamics

The European Union and Global Environmental Protection Mar Campins Eritja,2020-11-17 This book examines how the EU can be a more proactive actor in the promotion of the principles of sustainability and fairness from a legal environmental perspective The book is one of the

results of the research activity of the Jean Monnet Chair in EU Environmental Law 2017 2020 funded by the European Commission under the Erasmus programme The European Union and Global Environmental Protection Transforming Influence into Action begins with an introduction of the key EU competences instruments and mechanisms as well as the current international challenges at the EU level It then explores case study examples from four regulated fields climate change biodiversity multilateral trade unregulated fishing and access to justice and four unregulated areas mainstreaming of the Sustainable Development Goals in EU policies and environmental justice highlighting the extent to which the EU might align with international environmental regimes or extend its normative power This volume will be of great relevance to students scholars and EU policy makers with an interest in international environmental law and policy

People on the Move in a Changing Climate Etienne Piguet, Frank Laczko, 2013-10-17 Policymakers around the world are increasingly concerned about the likely impact of climate change and environmental degradation on the movement of people This book takes a hard look at the existing evidence available to policymakers in different regions of the world How much do we really know about the impact of environmental change on migration How will different regions of the world be affected in the future Is there evidence to show that migration can help countries adapt to environmental change What types of research have been conducted how reliable is the evidence These are some of the questions considered in this book which presents for the first time a synthesis of relevant research findings for each major region of the world Written by regional experts the book provides a comprehensive overview of the key findings of existing studies on the linkages between environmental change and the movement of people More and more reports on migration and the environment are being published but the information is often scattered between countries and within regions and it is not always clear how much of this information is based on solid research This book brings this evidence together for the first time highlighting innovative studies and research gaps In doing this the book seeks to help decision makers draw lessons from existing studies and to identify priorities for further research
