Revealing Rebellion in Abiyala Hannah

Burdette,2019-04-09 From the rise of the Pan Maya Movement in Guatemala and the Zapatista uprising in Mexico to the Water and Gas Wars in Bolivia and the Idle No More movement in Canada the turn of the twenty first century has witnessed a notable surge in Indigenous political action as well as an outpouring of texts produced by Native authors and poets Throughout the Americas Abiyala or the Land of Plenitude and Maturity in the Guna language of Panama Indigenous people are raising their voices and reclaiming the right to represent themselves in politics as well as in creative writing Revealing Rebellion in Abiyala explores the intersections between Indigenous literature and social movements over the past thirty years through the lens of insurgent poetics Author Hannah Burdette is interested in how Indigenous literature and social movements are intertwined and why these phenomena arise almost simultaneously in disparate contexts across the Americas Literature constitutes a key weapon in political struggles as it provides a means to render subjugated knowledge visible and to envision alternatives to modernity and coloniality The surge in Indigenous literature and social movements is arguably one of the most significant occurrences of the twenty first century and yet it remains understudied Revealing Rebellion in Abiyala bridges that gap by using the concept of Abiyala as a powerful starting point for rethinking inter American studies through the lens of Indigenous sovereignty [Mayan Literacy Reinvention in Guatemala](#) Mary J. De Castro,Ignacio Lòpez-Calvo,2023 The Latin American novel burst onto the international literary scene with the Boom era led by Julio Cort zar Gabriel Garc a M rquez Carlos Fuentes and Mario Vargas Llosa and has influenced writers

throughout the world ever since García Márquez and Vargas Llosa each received the Nobel Prize in literature and many of the best known contemporary novelists are inspired by the region's fiction. Indeed, magical realism, the style associated with García Márquez, has left a profound imprint on African American, African, Asian, Anglophone Caribbean, and Latinx writers. Furthermore, post-Boom literature continues to garner interest from the novels of Roberto Bolaño to the works of César Aira and Chico Buarque to those of younger novelists such as Juan Gabriel Vásquez, Alejandro Zambra, and Valeria Luiselli. Yet for many readers, the Latin American novel is often read in a piecemeal manner, delinked from the traditions, authors, and social contexts that help explain its evolution. The Oxford Handbook of the Latin American Novel draws literary, historical, and social connections so that readers will come away understanding this literature as a rich and compelling canon. In forty-five chapters by leading and innovative scholars, the Handbook provides a comprehensive introduction, helping readers to see the region's intrinsic heterogeneity; for only with a broader view can one fully appreciate García Márquez or Bolaño. This volume charts the literary tradition of the Latin American novel from its beginnings during colonial times, its development during the nineteenth and the first half of the twentieth century, and its flourishing from the 1960s onward. Furthermore, the Handbook explores the region's representations of identity, narrative trends, and authors that make this literature so diverse and fascinating, reflecting on the Latin American novel's position in world literature.

Dividing the Isthmus Ana Patricia Rodríguez, 2009-08-17 In 1899 the United Fruit Company (UFCO) was officially incorporated in Boston, Massachusetts, beginning an era of economic, diplomatic, and military interventions in Central America. This event marked the inception of the struggle for economic, political, and cultural autonomy in Central America, as well as an era of homegrown inequities, injustices, and impunities to which Central Americans have responded in creative and critical ways. This juncture also set the conditions for the creation of the Transisthmus, a material, cultural, and symbolic site of vast intersections of people, products, and narratives. Taking 1899 as her point of departure, Ana Patricia Rodríguez offers a comprehensive, comparative, and meticulously researched book covering more than one hundred years between 1899 and 2007 of modern cultural and literary production and modern empire building in Central America. She examines the grand narratives of anti-imperialism, revolution, subalternity, globalization, impunity, transnational migration, and diaspora, as well as other discursive, historical, and material configurations of the region beyond its geophysical and political confines. Focusing in particular on how the material productions and symbolic tropes of cacao, coffee, indigo, bananas, canals, waste, and transmigrant labor have shaped the transisthmian cultural and literary imaginaries, Rodríguez develops new methodological approaches for studying cultural production in Central America and its diasporas. Monumental in scope and relentlessly impassioned, this work offers new critical readings of Central American narratives and contributes to the growing field of Central American studies.

Le Maya Q'atzij/Our Maya Word Emil' Keme, 2021-06-08 Bringing to the fore the voices of Maya authors and what their poetry tells us about resistance, sovereignty, trauma, and regeneration. In 1954, Guatemala suffered a coup d'état, resulting in a

decades long civil war During this period Indigenous Mayans were subject to displacement disappearance and extrajudicial killing Within the context of the armed conflict and the postwar period in Guatemala K iche Maya scholar Emil Keme identifies three historical phases of Indigenous Maya literary insurgency in which Maya authors use poetry to dignify their distinct cultural political gender sexual and linguistic identities Le Maya Q atzij Our Maya Word employs Indigenous and decolonial theoretical frameworks to critically analyze poetic works written by ten contemporary Maya writers from five different Maya nations in Iximulew Guatemala Similar to other Maya authors throughout colonial history these authors and their poetry criticize in their own creative ways the continuing colonial assaults to their existence by the nation state Throughout Keme displays the decolonial potentialities and shortcomings proposed by each Maya writer establishing a new and productive way of understanding Maya living realities and their emancipatory challenges in Iximulew Guatemala This innovative work shows how Indigenous Maya poetics carries out various processes of decolonization and especially how Maya literature offers diverse and heterogeneous perspectives about what it means to be Maya in the contemporary world

Indigenous Cosmolectics Gloria Elizabeth Chacón, 2018-09-28 Latin America s Indigenous writers have long labored under the limits of colonialism but in the late twentieth and twenty first centuries they have constructed a literary corpus that moves them beyond those parameters Gloria E Chac n considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity Chac n argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics a philosophy originally grounded in pre Columbian sacred conceptions of the cosmos time and place and now expressed in creative writings More specifically she attends to Maya and Zapotec literary and cultural forms by theorizing kab awil as an Indigenous philosophy Tackling the political and literary implications of this work Chac n argues that Indigenous writers use of familiar genres alongside Indigenous language use of oral traditions and new representations of selfhood and nation all create space for expressions of cultural and political autonomy Chac n recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization
