Shakespeare's Dramatic Persons Travis

Curtright,2016-12-05 In Shakespeare s Dramatic Persons Travis Curtright examines the influence of the classical rhetorical tradition on early modern theories of acting in a careful study of and selection from Shakespeare s most famous characters and successful plays Curtright demonstrates that personation the early modern term for playing a role is a rhetorical acting style that could provide audiences with lifelike characters and action including the theatrical illusion that dramatic persons possess interiority or inwardness Shakespeare s Dramatic Persons focuses on major characters such as Richard III Katherina Benedick and Iago and ranges from Shakespeare s early to late work exploring particular rhetorical forms and how they function in five different plays At the end of this study Curtright envisions how Richard Burbage Shakespeare s best actor might have employed the theatrical convention of directly addressing audience members Though personation clearly differs from the realism aspired to in modern approaches to the stage Curtright reveals how Shakespeare s sophisticated use and development of persuasion s arts would have provided early modern actors with their own means and sense of performing lifelike dramatic persons
