Shamanism Explained Riley Star, 2018-09-04 Shamans are one of the oldest and most enduring ancient figures in history. During the ancient times, shamanism is part of some people's religions and magic rituals as it is an archaic method that can be traced back around the Paleolithic era. The elemental requirements, underlying fundamentals, and human psyche are the foundations of this ancient art that has remained constant throughout the ages. It is quite remarkable that this practice has survived over thousands of years and has been incorporated in many other religious and magical systems in the world. You don't need to know all the nuts and bolts of everything about Shamanism, but it's important that you understand the underlying principles of this system and master the ways of how you can apply it and integrate it in your own life. This is what this book is all about.
