Shamanism and the Mystery Lines Paul Devereux,1992-01-01      **Shamanism and the Mystery Lines** Paul

Devereux,2001 All archaic landscape lines are in essence spirit lines Within us all we hold a blueprint of this spiritual earth and of the ancient shamanic power of magical flight If we could only find the wellsprings of the psyche and translate these timeless patterns from our minds to the physical earth then we too could learn to experience the reality behind the straight line mystery Once again we would allow the spiritual earth to lead the way in our personal growth and transformation We need to bring this out of body state from its cultural exile and give it the much greater attention it deserves      **The A to Z**

**of Shamanism** Graham Harvey,Robert J. Wallis,2010-04-01 Few religious traditions have generated such diversity and stirred imaginations as shamanism In their engagements with other worlds shamans have conversed with animals and ancestors and have been empowered with the knowledge to heal patients advise hunters and curse enemies Still other shamans aided by rhythmic music or powerful plant helpers undertake journeys into different realities where their actions negotiate harmony between human and other than human communities Once relegated to paintings on cave walls today Shamanism can be seen in performances at rave clubs and psychotherapeutic clinics The A to Z of Shamanism has the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers This is done in an introduction a bibliography a chronology and hundreds of cross referenced dictionary entries which explore the consistent features of a variety of shamans the purposes shamanism serves the function and activities of the shaman and the cultural contexts in which they make sense      Historical Dictionary of Shamanism Graham Harvey,Robert J. Wallis,2015-12-15 A remarkable array of people have been called shamans while the phenomena identified as shamanism continues to proliferate This second edition of the Historical Dictionary of Shamanism contains with examples from antiquity up to today and from Siberia where the term shaman originated to Amazonia South Africa Chicago and many other places Many claims about shamans and shamanism are contentious and all are worthy of discussion In the most widespread understandings terms seem to refer particularly to people who alter states of consciousness or enter trances in order to seek knowledge and help from powerful other than human persons perhaps spirits But this says only a little about the artists community leaders spiritual healers or hucksters travelers in alternative realities and so on to which the label shaman has been applied This second edition contains a chronology an introduction and extensive bibliography The dictionary contains over 500 cross referenced dictionary entries on individuals groups practices and cultures that have been called shamanic This book is an excellent access point for students researchers and anyone wanting to know more about Shamanism      **Shamans/neo-Shamans** Robert J. Wallis,2003 Robert J Wallis explores the interface between the new and prehistoric shamans of popular culture and anthropology drawing on interviews with a variety of practitioners particularly contemporary pagans in Britain and north America      Dark Light Consciousness Edward Bruce

Notes from a Diviner in the Postmodern

World Theresa C. Dintino, 2016-06-16 What does it mean to bring indigenous wisdom to the postmodern world How do divination and ritual fit into modern society How does one integrate ancient spiritual teachings into a western mindset while remaining true to the original meaning Notes from a Diviner in the Postmodern World A Handbook for Spirit Workers is a guidebook for both diviners and spirit workers of any tradition In this book Dintino describes what she calls the landscape of the otherworld revealed to her through spirits ancestors archangels elemental and light beings in her divinations Whatever your spiritual tradition there s always a shared landscape of the otherworld Understanding the landscape will help you navigate your own spiritual terrain Learning how to be an effective diviner and spirit worker also means that you must interact fully with the wisdom of the place where you live which includes learning from all living things including mountains and water This powerful handbook teaches you how to heal your world by exploring inter dimensional realms and ultimately becoming a spiritual steward of the Earth When I became a diviner I did not expect to encounter a landscape in the otherworld that I would become familiar with and navigate more easily as I continued to divine I am still exploring this landscape but wanted to share some of the things I have learned in order to help those interested in the dimensional realms understand better what they are seeing What I have included in this book is not meant to be rigid it is a conversation and a guide
