The Science of Congregation Studies Leslie J. Francis, David W. Lankshear, 2022-01-01 During the past two decades the Science of Congregation Studies has blossomed significantly in the UK as well as within the USA and Australia In this illuminating and thought provoking volume Leslie J Francis research group draws on the Signs of Growth Survey conducted throughout the Anglican Diocese of Southwark to illustrate how the strength of combined qualitative and quantitative research methods can draw on the insights of psychological theory sociological theory and empirical theology to illuminate pressing questions of relevance to the sociology of religion psychology of religion practical theology and pastoral studies Individual chapters discuss the missing generation of young people the greying generation aged seventy and over how occasional churchgoers express belonging and commitment connections between psychological type and religious motivation and the distinctive characteristics of growing congregations *Church and Estate* Thomas F. Rzeznik, 2013-06-20 In *Church and Estate* Thomas Rzeznik examines the lives and religious commitments of the Philadelphia elite during the period of industrial prosperity that extended from the late nineteenth century through the 1920s The book demonstrates how their religious beliefs informed their actions and shaped their class identity while simultaneously revealing the ways in which financial influences shaped the character of American religious life In tracing those connections it shows how religion and wealth shared a fruitful yet ultimately tenuous relationship

Reinventing Anglicanism Bruce Norman Kaye, 2004 Anglicanism world wide faces huge problems in the post Empire era Churches that were originally founded as colonial and missionary outposts by Great Britain and the United States have now become autonomous Anglican provinces and what used to be a predominantly white Anglo Saxon group of churches in the northern hemisphere has become a truly global

community most of whose members live in Africa Asia Latin America and the Pacific Using the experience of the Anglican Church in Australia Bruce Kaye tracks the modern story of Australian Anglicanism and reconsiders key elements of the New Testament the English Reformation and the ongoing theological tradition that relate to this story *Research in the Social Scientific Study of Religion, Volume 31* Ralph W. Hood, Sariya Cheruvallil-Contractor, 2020-11-30 Volume 31 of Research in the Social Scientific Study of Religion A Diversity of Paradigms showcases two approaches to the socio scientific study of religion It includes a special section within which authors draw on data collected about congregational life in the Australian National Church Life Surveys from 1991 to present These studies give voice to minority groups and children While findings include the strengths of ethnic diversity and the positive experiences of young churchgoers they also highlight that full inclusion in local church life is far from being realized A second section explores the application of feminist approaches within the sociology of religion In their struggle for equality for women feminist scholars developed methodologies to challenge the marginality of any othered group This section showcases how use of these methods challenges hierarchies within knowledge *Making Disciples* Sylvia Wilkey Collinson, 2007-01-01 The Christian faith community regards the making of disciples as a prime directive of Jesus himself though this theme is not dominant in contemporary models of teaching in the church This investigation seeks to develop a theory of discipling and to test its congruence as an effective educational strategy with the objectives of modern Christian faith communities After briefly examining the discipling model of teaching as practiced in the world of the Ancient Near East a detailed study of New Testament texts investigates the practice of discipling by Jesus and his followers and in the church of the first century An understanding of the concept of discipling is gained by gradually refining its definition as the study progresses through a contemporary examination of other informal models of education Religious and educational research findings are explored to enable the validity of the discipling model to be determined Finally the definition is used as a benchmark to examine various contemporary educational theories within the community of faith In contrast to the schooling model discipling has been shown to be an effective model for teaching attitudes values and behavior as well as knowledge and beliefs in today s church Its emphasis on commitment to learning relationships within a nurturing community and active involvement in the mission of Christ to the world and its capacity to adapt to differences in age culture ability and interests make it a model of teaching worthy of much greater attention by the Christian faith community *Research in the Social Scientific Study of Religion, Volume 26*, 2015-08-25 This volume includes a wide range of papers that explore individual and institutional aspects of religion from a social science perspective The special section has articles from research groups in Europe the USA and Australia on clergy work related psychological health stress burnout and coping strategies The general papers include studies on coping strategies among Buddhists gender differences in response to church decline teenage participation in religion social capital among Friends of Cathedrals psychological profiles of clergy education effects on Roman Catholic deacons and an analysis of prayer requests
