Too Many Bosses, Too Few Leaders Rajeev Peshawaria, 2011-05-10 How did Alan Mulally an outsider to the auto industry lead such a spectacular turnaround at Ford How did Morgan Stanley CEO John Mack keep his company from imploding even as Lehman Brothers collapsed What is it that enables such extraordinary leaders to galvanize their talents and energy as well as the talents and energy of those who work for them to achieve superior performance no matter what challenges they face Rajeev Peshawaria has spent more than twenty years working alongside top executives at Fortune 500 companies and training them in leadership including as Global Director of Leadership Development programs at American Express as Chief Learning Officer at both Morgan Stanley and Coca Cola and as one of the founding members of the renowned Goldman Sachs leadership development program known as Pine Street He knows precisely what makes the difference between those who are simply bosses and those who are superior leaders and between those who continue to rise to the top levels and those who get stuck along the way In this lively and remarkably empowering book Peshawaria offers readers the opportunity to experience the highest level of leadership training available in the world Introducing the three core principles he has observed are the foundation of the best leadership that great leaders clearly define their purpose and values that nobody can motivate another person because everyone comes premotivated and that a leader s job is not to directly produce results but to create the conditions that will harness the energy of others he details his unique and proven program for achieving leadership excellence Sharing a wealth of illuminating stories from those of Mulally s achievement at Ford and Mack s at Morgan Stanley to how Harvey Golub and Ken Chenault successfully restored American Express to long term sustainable growth how Neville Isdell turned the Coca Cola

Company around and the continuing prowess of Jeff Bezos in growing Amazon.com he first reveals how extraordinary leaders marshal and sustain the level of energy in themselves that is required and how they enlist a core group of proficient co-leaders. He then outlines how to harness the energy and talents of those at all levels of an organization igniting their motivation by following his RED guidelines for addressing their core needs concerning their Role, their work Environment and their career Development. Finally, he introduces his unique Brains, Bones and Nerves framework for developing a clear strategy for competitive advantage: the Brains crafting an optimal organizational structure, the Bones fostering a highly cooperative and motivated company culture, the Nerves Filled with specific tips about the vital questions to ask and simple but powerful steps to follow. **Too Many Bosses Too Few Leaders** is a manager's essential tool kit for long-term superior performance.

Surgical Decision-Making Rifat Latifi, 2025-01-02 This revised and expanded new edition reviews surgical decision making in complex surgical procedures including making difficult decisions, continuous awareness of the patient's physiologic status, the biochemical profile, endpoint resuscitation and the surgeon's own physiologic status. Other specific surgical decisions are discussed such as when to operate and when not to operate, re-operations and operations in specific conditions and age groups. This new edition addresses these and other elements that are important for the intraoperative and perioperative

decision making process including basic questions that have not been answered appropriately in the literature Many of us make decisions based on current evidence but much of it based on a gut feeling or intuition or the gray hair effect among other techniques In this book the anatomy of such decisions is explored from a theoretical standpoint as well as objective data that we as surgeons use to make surgical decisions Nowhere else is the matter of how we make a decision often with a very limited amount of data decisions that will decide between someone living or dying more prevalent than in trauma surgery and other complex surgeries including the unplanned return to the operating room Our collective firsthand experience as surgeons points to a combination of factors contributing to our perioperative and intraoperative decision making process including education clinical know how mentoring and the creativity and excellence that come with long practice and strict discipline The second edition of Surgical Decision Making Evidence and Beyond provides a unique and valuable resource in the field for surgeons currently in training and for those already in clinical academic or community surgery practice

Chanakya in Blue Denims Mahendra Garodiya, 2025-04-04 The premise of the present book on family business is that according to Chanakya Most challenges to the kingdom come from inside the kingdom then outside Therefore one must fortify the kingdom from within The king must take care of proper education of self supporters and successor for a long rule over the kingdom Our mission through this book is to empower family businesses by building sustainable business models for them thereby helping them attract authentic team members customers and investors Today s education system moulds students from KG to PG into job seekers instead of job creators Even children of family business owners who can create jobs are themselves seeking jobs Being able to provide them with food clothing shelter and self respect at the same time employment Hence the greatest loss to society is this potential job creator family businessman being converted into a job seeker
