 adult awareness of sexuality Here the thundering fire brimstone priests and strap happy Christian Brothers do constant  
 battle with their shameless sacrilegious gutter snipe pupils The boys caper through a world where their animal spirits and  
 sexual curiosity keep them on a collision course with the pomposities of the adults in charge of them Funny definitely but also  
 poignant especially for readers who had a similar education Sharks in the Arts Vivienne Westbrook,Shaun Collin,Dean  
 Crawford,Mark Nicholls,2018-05-11 This book is the most thorough exploration to date of the many ways in which a wild  
 creature has been absorbed reimagined and represented across the ages in all of the major art forms The authors consider  
 not only how the identity of sharks in the natural environment became incorporated into a cultural environment but also how  
 sharks came to be considered the most feared creatures in the open oceans as a consequence of this incorporation Yet sharks  
 are especially important in helping to maintain a balance that is essential to the health of the oceans The book begins with a  
 treatment of the three sharks at the top of global shark attack files from scientific economic and environmental perspectives  
 Subsequent chapters engage with cultural representations of sharks in poetry drama art novels screenplay adaptations and  
 films Through an exploration of the ways in which sharks have been represented in human culture through the centuries this  
 book alerts the global community to the importance of sharks as a common cultural heritage It aims to change perceptions of  
 sharks so that they can become more revered than feared The authors of this book argue that an increased understanding of  
 sharks should lead to the development of better strategies for shark and human interactions This book will be of great  
 interest to researchers and students of the Environmental Humanities Cultural History and the Arts It is also excellent

**Fiction Index** ,1953     "This shark, swallow you whole" Kathy Merlock Jackson,Philip L. Simpson,2023-03-09 One of the most influential thrillers in media history Jaws first surfaced as a best selling novel by first time novelist Peter Benchley in 1974 followed by the 1975 feature film directed by Steven Spielberg at the beginning of his storied career Jaws is often considered the first blockbuster and successive generations of filmmakers have cited it as formative in their own creative development For nearly 50 years critics and scholars have studied how and why this seemingly straightforward thriller holds such mass appeal This book of original essays assembles a range of critical thought on the impact and legacy of the film employing new perspectives historical cinematic literary scientific and environmental while building on the insights of previous writers While varying in focus the essays in this volume all explore why Jaws was so successful in its time and how it remains a prominent storytelling influence well into the 21st century

Shark Richard Ellis,2012-04-17 The sharks ancient or modern real or imaginary have always been with us and will probably remain with us forever They appear not only in movies and literature but in countless permutations of size shape and materials permeating our daily lives with their silent menace In a sense humans live in a world replete with sharks not vice versa Thus Richard Ellis sets about chronicling and debunking the myths of sharks throughout history From 18th century art to the phenomena

of JAWS the shark has remained the indomitable aggressor of the deep the last demon of humankind The image of the shark and the fear it inspires infiltrates our daily lives with its mythical power and strength But it is not man who should fear the shark Our need to dominate these predators is destroying them and their habitat Through hundreds of full color images Ellis proves the necessity of preserving these majestic creatures As curator of the Ft Lauderdale Museum of Art s exhibition entitled Shark debuting May 2012 Ellis adeptly turns these sleek efficient hunters from monsters of the deep into rare beautiful forces of nature
