Tucker Abbott, 1973 Shells in Colour ,1979 *Proceedings of the Malacological Society of London* Malacological Society of London, 1925 Ecological Genetics and Evolution Robert Creed, 2012-12-06 One of the privileges of appointment to a Chair at another University is that it gives one the right to talk to many distinguished people about their work and ideas E B Ford was known to me before I came to Oxford as the author of a book on butterflies and as somewhat of an eccentric but I was quite unprepared for the welcome he gave me into the Department of Zoology and for the enormous interest of the subject which he gradually revealed to me My contact with the Genetics Laboratory was made easier by one of the first things I had to do Within a few weeks of my arrival it came to light that a new building for another department was to be erected on a piece of land known to us as Henry's weed garden but generally regarded as being derelict Even my at that time elementary knowledge of ecological genetics made it easy to realize that the population of caterpillars that had been under continuous observation there for eleven years put it in a rather special category of wilderness although I did not succeed in saving it I was able to persuade the university to substitute another experimental plot and this may have helped the geneticists to appreciate that the new professor was not only interested in electrical apparatus *Catalogue of the Collection of Mazatlan Shells, in the British Museum* Philip Pearsall Carpenter, 1857 **The Mysterious Marbler ...
