exploration of assembly research that sets the intellectual agenda for the chapters that follow We then examine the emergence and development of the thing in Scandinavia and its export to the lands colonised by the Norse We consider more broadly how assembly practices may have developed at a local level yet played a significant role in the consolidation and at times regulation of elite power structures Presenting a fresh perspective on the agency and power of the thing and cognate types of local and regional assembly this interdisciplinary volume provides an invaluable in depth insight into the people places laws and consensual structures that shaped the early medieval and medieval kingdoms of northern Europe The Mediterranean Medina AA. VV.,2016-01-03T00:00:00+01:00 This volume collects the proceedings of the International Seminar The Mediterranean Medina that took place in the School of Architecture at Pescara from 17th to 19th of June 2004

The Halle Orphanage as Scientific Community Kelly Joan Whitmer,2015-05-12 Founded around 1700 by a group of German Lutherans known as Pietists the Halle Orphanage became the institutional headquarters of a universal seminar that still stands largely intact today It was the base of an educational charitable and scientific community and consisted of an elite school for the sons of noblemen Yet its reputation as a Pietist enclave inhabited largely by young people has prevented the organisation from being taken seriously as a kind of scientific academy even though Kelly Joan Whitmer shows this is precisely what it was This book calls into question a long standing tendency to view German Pietists as anti science and anti Enlightenment arguing that these tendencies have drawn attention away from what was actually going on inside the orphanage Perspecta 47 James Andrachuk,Christos C. Peasant and Empire in Christian North Africa Leslie Dossey,2010 This remarkable history foregrounds the most marginal sector of the Roman population the provincial peasantry to paint a fascinating new picture of peasant society Making use of detailed archaeological and textual evidence Leslie Dossey examines the peasantry in relation to the upper classes in Christian North Africa tracing that region s social and cultural history from the Punic times to the eve of the Islamic conquest She demonstrates that during the period when Christianity was spreading to both city and countryside in North Africa a convergence of economic interests narrowed the gap between the rustici and the urbani creating a consumer revolution of sorts among the peasants This book s postcolonial perspective points to the empowerment of the North African peasants and gives voice to lower social classes across the Roman world **The Modern Courtyard House** Duncan Macintosh,1973
