The Indian Army was the chief Imperial reserve for an empire under threat. But how did those sepoys understand and explain their own war experiences and indeed themselves through that experience? How much did their testimonies realise and reflect their own fragmented identities as both colonial subjects and imperial policemen? The Testimonies of Indian Soldiers and the Two World Wars draws upon the accounts of Indian combatants to explore how they came to terms with the conflicts. In thematic chapters Gajendra Singh traces the evolution of military identities under the British Raj and considers how those identities became embattled in the praxis of soldiers' war testimonies chiefly letters depositions and interrogations. It becomes a story of mutiny and obedience of horror loss and silence. This book tells that story and is an important contribution to histories of the British Empire South Asia and the two World Wars **Instruments of War** Spencer C. Tucker, 2015-07-28 This highly detailed and well illustrated single volume work documents the evolution of warfare across history through weaponry and technological change. In war the weapons and technologies employed have direct effects on how battles are waged. When new weapons are introduced they can dramatically alter the outcomes of warfare and consequently change the course of history itself. This reference work provides a fascinating overview of the major weapon systems and military technologies that have had a major impact on world history. Addressing weapons as crude as the club used by primitive man to the high tech weapons of today such as unmanned drones Instruments of War: Weapons and Technologies That Have Changed History offers nearly 270 profusely illustrated entries that examine the key roles played by specific weapons and identify their success and failures. The book begins with an introductory essay that frames the subject matter of the work and discusses the history of weapons as a whole.
