Hitler's Traitors Edward Harrison, 2022-09-21 This collection of vivid essays examines some of the most fascinating aspects of the German resistance to Hitler It includes the first translations into English of pioneering studies on the role of a leading Nazi in the July Plot the flight of Rudolf Hess to Britain and the vigorous controversy over Hugh Trevor Roper's investigation of Hitler's death The book also explores vociferous Catholic dissent in Franconia and the conspiracies against the Third Reich of the revolutionary New Beginning movement Through the study of important personalities and dramatic events this book explores the possibilities and challenges faced by Germans in attempts to frustrate and defy Hitler's tyranny

Prophet of Community Eugene Lunn, 2023-11-10 Gustav Landauer literary critic mystical philosopher and left wing activists was Germany's major anarchist thinker at the beginning of the twentieth century In this full scale intellectual biography Lunn depicts the evolution of Landauer's social thought a rich terrain within which to examine afresh some intellectual crosscurrents of the Wilhelminian era Landauer's work in the various circles and movements of his social milieu after 1900 including anarchist youth movement expressionist and Zionist groups reveal a convergence of volkisch and communitarian ideas with libertarian forms of socialist democracy The study of this kind of romantic socialism in revolt against both industrial modernity and authoritarian government highlights the inadequacy of viewing volkisch themes exclusively in terms of Nazi roots What emerges from this study is the appeal of antiauthoritarian and communitarian ideas for middle class Left intellectuals dissatisfied with the official Social Democratic Party In the light of the tragic failures of democratic and socialist forces to gain middle class support during the Weimar Republic and of the Nazis antidemocratic uses of Gemeinschaft this earlier search for a communitarian democracy gains in importance This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973

Marxism, China, and Development A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao's Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists
