Memoirs Of A Space Traveler Further Reminiscences Of Ijon Tichy:

Memoirs of a Space Traveler Stanisław Lem, 2000 Ijon Tichy is an ordinary space traveler whose extraordinary curiosity leads him to the very fringes of science. Their plans are grandiose, the bargains they make too often Faustian for the ends these scientists pursue concern humanity's greatest and most ancient obsessions: immortality, artificial intelligence, and top of the line consumer items. By turns philosophical, satirical, and absurd, Lem's stories follow Ijon's adventures as both an observer of and participant in strange experiments: faulty time machines, intelligent washing machines, suicidal potatoes. Ijon Tichy navigates them all with common sense and in so doing shows why he endures as one of Lem's most popular characters.

Memoirs of a Space Traveller Stanisław Lem, 1991 ***The Star Diaries*** Stanisław Lem, 2024-02-27 Ijon Tichy encounters bizarre civilizations and creatures in space, satirizing science, the rational mind, theology, and other icons of human pride. A space explorer travels undercover to a robot world, joining an organization to clean up world history through time travel. The universe may never be the same. Tichy bumbles and stumbles around the cosmos, running out of gas between stars, sneaking around in cybernetic drag on a planet of mad robots trying to duplicate himself in a tail-chasing time loop near a gravitational vortex, long enough to do a two-man rudder repair job, botching up the course of human events in a history salvaging operation. Lem veers between joyous slapstick, freewheeling satire, and insanely involuted logical paradoxes with surprisingly serious excursions into issues of will and faith. Funny, unexpected, tantalizing. Kirkus Reviews: Part satire, part imaginative play, and part thought experiment. *The Star Diaries* is a collection of stories.

voyages to be precise telling of the space man Ijon Tichy's adventures and encounters across the universe and through time Tongue in cheek throughout it's only a question of how much the cheek bulges in each hilarious witty and philosophical all at once Speculiction Lem's Star Diaries have a special place among his story cycles since they span most of his career and reflect his changing concerns Still they have a common theme the presumptuousness of the intellect Science Fiction Studies Tichy's twelve voyages are told as a philosophical satire on technology theology intelligence and human nature Inclover Magazine
