(1745-1779) John MacDonald, 1790 Travelling Servants Kathryn Walchester, 2019-07-26 This book outlines the contribution made by servants to domestic and Continental travel and travel writing between 1750 and 1850 Aiming to reposition British and European travel during this period as a site of work as well as leisure Kathryn Walchester provides commentary and analysis of texts by servants not addressed in current scholarship By reading texts contrapuntally this book draws attention to repeated tropes and common patterns in the ways in which servants are featured in travelogues and in so doing offers an account of alternative modes of experiencing and writing about the Home Tour and the Grand Tour

Travellers in Eighteenth Century Europe Julie Peakman, 2025-01-16 Travellers in Eighteenth Century Europe is an edited collection with contributions by leading scholars brought together by a prolific author with expertise in eighteenth century culture The Grand Tour was considered a part of the education of a young gentleman Travellers included blossoming scholars poets writers and scientists Visits were made to Greece and Italy via France and Switzerland often taking in Turkey But women also traveled extensively though these accounts have been under explored The book will examine first hand accounts of the impact of foreign travel on both women and men seen through their letters travel diaries journals and their creative response in poems music and art Its originality is seen in its exploration of a comparison between the views of women and men abroad and the differences in what they deemed interesting and worthy of comment The book is especially relevant in light of the many past and current xenophobic views of the foreigner Here we more often see travellers viewing their experience of otherness and exoticism in a positive light a cultural appreciation rather than a cultural appropriation This book examines how men and women saw these new worlds opening up before them what delighted them what influenced them and their interaction with others in the light of domesticity antiquity politics work science sex and friendships Women, Work & Sexual Politics in Eighteenth-century England Bridget Hill, 1994 In this fundamental

reassessment of women's experience of work in eighteenth century England Bridget Hill examines how and to what extent industrialization improved the overall position of women and the opportunities open to them Focusing on the most important unit of production the household Dr Hill examines women's work not only in housework but also in agriculture and manufacturing and reveals what women lost as the household's independence as a unit of economic production was undermined Considering the whole range of activities in which women were involved the increasing sexual division of labour is charted and its implications highlighted The final part of the book considers how the changing nature of women's work

influenced courtship marriage and relations between the sexes Women, Work And Sexual Politics In Eighteenth-Century England Bridget Hill, 2005-08-04 The author offers a reassessment of how women's experience of work in 18th century England was affected by industrialization and other elements of economic social and technological change This study focuses on the household the most important unit of production in the 18th century Hill examines the work done by the women of the household not only in housework but also in agriculture and manufacturing and explains what women lost as the household's independence as a unit of economic production was undermined Considering the whole range of activities in which women were involved including many occupations unrecorded in censuses which have therefore been largely ignored by historians Hill charts the increasing sexual division of labour and highlights its implications She also discusses the role of service in husbandry and apprenticeship as sources of training for women and the consequences of their decline The final part of the book considers how the changing nature of women's work influenced courtship marriage and relations between the sexes Among the topics discussed are the importance of the women's contribution to setting up and maintaining a household labouring women's attitudes to marriage and divorce and the customary alternatives to them and the role of spinsters and widows The author concludes by asking to what extent the industrial revolution improved the overall position of women and the opportunities open to them This series aims to re-establish women's history and to challenge the assumptions of much mainstream history Focusing on the modern period and encouraging perspectives from other disciplines it seeks to concentrate upon areas of focal importance in the history of Britain and continental Europe Bridget Hill is the author of *Eighteenth Century Women* An Anthology and *The First English Feminist* **The Saturday Review of Politics, Literature, Science, Art, and Finance**, 1928 **Domestic Affairs** Kristina Straub, 2009-02-02 From Daniel Defoe's *Family Instructor* to William Godwin's political novel *Caleb Williams* literature written for and about servants tells a hitherto untold story about the development of sexual and gender ideologies in the early modern period This original study explores the complicated relationships between domestic servants and their masters through close readings of such literary and nonliterary eighteenth century texts The early modern family was not biologically defined It included domestic servants who often had strong emotional and intimate ties to their masters and mistresses Kristina Straub argues that many modern assumptions about sexuality and gender identity have their roots in these affective relationships of the eighteenth century family By analyzing a range of popular and literary works from plays and novels to newspapers and conduct manuals Straub uncovers the economic social and erotic dynamics that influenced the development of these modern identities and ideologies Highlighting themes important in eighteenth century studies gender and sexuality class labor and markets family relationships and violence Straub explores how the common aspects of human experience often intersected within the domestic sphere of master and servant In examining the interpersonal relationships between the different classes she offers new ways in which to understand sexuality and gender in the eighteenth century The Saturday Review of Politics, Literature, Science and

Art ,1928 **A Path in the Mighty Waters** Stephen Russell Berry,2015-01-01 This book tells the story of how people experienced the eighteenth century crossing of the Atlantic Ocean exploring the transformative journey undertaken by the thousands of Europeans who journeyed in search of a better life Stephen Berry shows how the ships on which passengers were contained in close quarters for months at a time operated as compressed frontiers where diverse groups encountered one another and established new patterns of social organization As he argues that experiences aboardship served as a profound conversion experience for travelers both spiritually and culturally Berry reframes the history of Atlantic migrations giving the ocean and the ship a more prominent role in Atlantic history The ocean was more than a backdrop for human events it actively shaped historical experiences by furnishing a dissociative break from normal patterns of life and a formative stage in travelers processes of collective identification **East India Patronage and the British State** George McGilvary,2008-07-30 The Act of Union in 1707 brought with it a new Great Britain How did the English bind the Scottish elites to the new British State ensuring the stability of this new power in the face of possible Jacobite and international threat From 1725 a patronage system existed in Britain enabling government ministries to use posts in the East India Company and its shipping to secure political majorities in Scotland and Westminster Scots went to India as Company servants ships crews soldiers and free merchants bringing back exceptional wealth to a land starved of money and providing for commercial and industrial advances throughout Great Britain The importance of the system of patronage which enabled so many Scots to go to the East has not hitherto been recognised and cannot be overestimated It bound the Scots with their English neighbours in business political management and empire with consequences going far beyond the eighteenth century **Nation** ,1927

The Flight of Icarus James S. Amelang, 1998-08-01 Exploring autobiographical texts written by European urban craftsmen from the fifteenth to the eighteenth centuries this wide ranging book studies memoirs diaries family chronicles travel narratives and other forms of personal writings from Spain France Italy Germany and England In the process it considers the motivations of the authors the changing forms and emphases of artisan narratives and more generally the significance of written self expression in early modern popular culture By analyzing reading and writing as practices laden with social meaning this work aims to illuminate the changing role of the lower classes and other groups considered marginal in the history of literature and literacy It uncovers an Icarian logic by which writing about the self and one's immediate and private world developed as a complex response to widely shared expectations regarding the cultural and political subordination of craftsmen and others relegated to the margins of public life and discourse The book also contributes to the contemporary interdisciplinary debate concerning the nature and evolution of autobiographical writing It draws upon those currents within literary studies such as feminist criticism which favor a more flexible approach to the study of first person narrative than that adopted by traditional literary critics and historians of ideas It also argues for revising the standard history of autobiography eschewing the teleological presentation of a small handful of classic texts in favor of a more nuanced trajectory in which a wide range of social actors helped shape the emerging patterns of modern self understanding and expression
