Notable New Zealand Statesmen Twelve P:

A Controversial Churchman Allan K. Davidson, 2021-05-03 New Zealand's first Anglican bishop George Selwyn was a towering figure in the young colony. Denounced as a turbulent priest for speaking out against Crown practices that dispossessed Māori, he brought a vigorous approach to Episcopal leadership. His wife Sarah Selwyn supported all her husband's activities in a life characterised as one of hardship and anxiety. She expressed independently her sense of outrage over the Waitara dispute. Selwyn promoted participatory church government, founded the innovative Melanesian Mission, and developed a distinctive style of colonial church architecture. More controversially, he battled with the Church Missionary Society and was caught up in the bitter maelstrom of settler and Māori politics. His personal links with colonial and ecclesiastical networks gave him access to the heart of empire. These essays offer new insights into Selwyn's role in developing pan-Anglicanism, strengthening links between the Church of England and the Episcopal and Anglican Churches in North America, and his time as Bishop of Lichfield 1868-78. His place in Treaty history as a political commentator and a valuable source of historical information is recognised. George Selwyn left a large imprint on New Zealand church and society. This collection both honours and critiques a controversial bishop. Contributors include Ken Booth, Judith Bright, Terry M. Brown, Janet E. Crawford, Bruce Kaye, Warren E. Limbrick, Jonathan Mane Wheoki, Grant Phillipson, John Stenhouse, and Rowan Strong. *The Statesman's Year-Book* S. Steinberg, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world. The History of Policing in New Zealand: Policing the colonial frontier Richard S. Hill, 1986 **Church and State in Old and New Worlds** Hilary M. Carey, John Gascoigne, 2010-12-06 Church-state relations have always been important, but the need for an historical re-evaluation has been heightened by recent developments in the relations between governments and religious bodies. Drawing on a wide range of historical case studies, this book focuses particularly on the way in which the traditional European Old World fusion of church and state was reshaped in the New World of European settler colonies of the United States, Australia, and New Zealand. Its analysis illuminates both the historical dynamics of such changes and the way in which such developments continue to influence the conduct of church-state relations in both the Old and the New Worlds. *New Zealand National Bibliography to the Year 1960: 1890-1960, P-Z* Austin Graham Bagnall, 1970 *Origins of the Maori Wars* Keith Sinclair, 2013-10-01 Keith Sinclair's *The Origins of the Maori Wars* is a fascinating account of the Waitara purchase and the cause of war in Taranaki in 1860. The seeds of conflict were sown in the earliest days of European settlement in New Zealand when colonists arrived to take up land for which they had paid before it had been procured. The King party, one of the earliest national movements among Māori, reacted against this imperial expansion. The story of the developing crisis features good intentions, self-interest, obstinacy, and miscalculations. Elements involved in the origins of many wars. Written over ten years, *The Origins of the Maori Wars* is a pioneering study that comes complete with scholarly apparatus including maps, appendices, notes, and an index. First
