Pidgins And Creoles Vol 2 Reference Survey:

Pidgins and Creoles: Volume 2, Reference Survey John A. Holm, 1989-05-11 This second volume of John Holm's *Pidgins and Creoles* provides an overview of the socio-historical development of each of some one hundred known pidgins and creoles. Each variety is grouped according to the language from which it drew its lexicon: Portuguese, Spanish, Dutch, French, English, African, and other languages. John Holm convincingly demonstrates the historical and linguistic reasons for this organisation, which also enables the reader to perceive with ease the interrelationship of all varieties within each group. The section devoted to each variety provides a discussion of its salient linguistic features and presents a brief text usually of connected discourse with a morpheme-by-morpheme translation. Readers thus have access to data from all known pidgins and creoles in the world, and the volume provides possibly the most comprehensive reference source on pidginization and creolization yet available. The emphasis of John Holm's first volume was on linguistic structure and theory. Each volume can be read independently, but together the two volumes of *Pidgins and Creoles* provide a major survey of current pidgin and creole linguistics, which lays new foundations for research in the field.

The Structure and Status of Pidgins and Creoles Arthur K. Spears, Donald Winford, 1997-10-06 Destined to become a landmark work, this book is devoted principally to a reassessment of the content, categories, boundaries, and basic assumptions of pidgin and creole studies. It includes revised and elaborated papers from meetings of the Society for Pidgin and Creole Linguistics, in addition to commissioned papers from leading scholars in the field. As a group, the papers undertake this reassessment through a reevaluation of pidgin/creole terminology and contact language typology. Section One: a questioning of process and evolution in pidginization/creolization and other language contact phenomena. Section Two: a reinterpretation of the sources and genesis of grammatical aspects of Saramaccan and Atlantic creoles in general. Section Three: a reconsideration of the status of languages defying received definitions of pidgins and creoles. Section Four: analyses of aspects of grammar that shed light on the issue of what a possible creole grammar is. Section Five: *The History of English*. Stephan Gramley, 2012-03-15 *The History of English: An Introduction* provides a chronological analysis of the linguistic, social, and cultural development of the English language from before its establishment in Britain around the year 450 to the present. Each chapter represents a new stage in the development of the language from Old English through Middle English to Modern Global English, all illustrated with a rich and diverse selection of primary texts showing changes in language resulting from contact, conquest, and domination, and the expansion of English around the world. *The History of English* goes beyond the usual focus on English in the UK and the USA to include the wider global course of the language during and following the Early Modern English period. This perspective therefore also includes a historical review of English in its pidgin and creole varieties and as a native and/or second language in the Caribbean, Africa, Asia, and Australasia. Designed to be user-friendly, *The History of English* contains chapter introductions and conclusions to assist study, over 80 textual examples demonstrating linguistic change, accompanied by

translations and or glosses where appropriate study questions on the social cultural and linguistic background of the chapter topics further reading from key texts to extend or deepen the focus nearly 100 supporting figures tables and maps to illuminate the text 16 pages of colour plates depicting exemplary texts relevant artefacts and examples of language usage including Germanic runes the opening page of Beowulf the New England Primer and the Treaty of Waitangi The companion website at www.routledge.com/cw/gramley supports the textbook and features an extended view of major aspects of language development as well as synopses of material dealt with in a range of chapters in the book further sample texts including examples from Chaucer numerous Early Modern English texts from a wide variety of fields and twenty first century novels additional exercises to help users expand their insights and apply background knowledge an interactive timeline of important historical events and developments with linked encyclopaedic entries audio clips providing examples of a wide range of accents The History of English is essential reading for any student of the English language

Creole Genesis, Attitudes and Discourse John R. Rickford, Suzanne Romaine, 1999 This collection in honor of creolist Charlene Junko Sato 1951 1996 brings together contributions by leading specialists in pidgin creole studies in three primary areas Pidgin Creole Genesis and Development Attitudes and Education and Creole Discourse and Literature The varieties covered come from English French and Spanish lexical bases and from places as far apart as Africa Australia Hawaii and the Caribbean Editors Rickford and Romaine introduce each of the papers and provide a biography and bibliography of Sato A short story and poems in Hawaiian Creole Sato's native language and the variety which was the focus of her research and writing round out the collection

Although millions of slaves were forcibly transported from Africa to Brazil the languages the slaves brought with them remain little known Most studies have focused on African contributions to Brazilian Portuguese rather than on the African languages themselves This book is unusual in focusing on an African descended language The author describes and analyzes the Afro Brazilian speech community of Calunga in Minas Gerais Linguistically descended from West African Bantu Calunga is an endangered Afro Brazilian language spoken by a few hundred older Afro Brazilian men who use it only for specific secret communications Unlike most creole languages which are based largely on the vocabulary of the colonial language Calunga has a large proportion of African vocabulary items embedded in an essentially Portuguese grammar A hybrid language its formation can be seen as a form of cultural resistance Steven Byrd's study provides a comprehensive linguistic description of Calunga based on two years of interviews with speakers of the language He examines its history and historical context as well as its linguistic context its sociolinguistic profile and its lexical and grammatical outlines *A Pepper-pot of Cultures* Gordon Collier, Ulrich Fleischmann, 2003

The terms creole and creolization have witnessed a number of significant semantic changes in the course of their history Originating in the vocabulary associated with colonial expansion in the Americas it had been successively narrowed down to the field of black American culture or of particular linguistic phenomena Recently creole has expanded again to cover the broad area of cultural contact and transformation characterizing the processes of globalization initiated by the colonial migrations of past centuries The present volume is intended to illustrate these various stages either by historical and or theoretical discussion of the concept or through selected case studies The authors are established scholars from the areas of literature linguistics and cultural studies they all share a lively and committed interest in the Caribbean area certainly not the only or even oldest realm in which processes of creolization have shaped human societies but one that offers by virtue of its history of colonialization and cross cultural contact its most pertinent example The collection beyond its theoretical interest thus also constitutes an important survey of Caribbean studies in Europe and the Americas As well as searching overview essays there are sociolinguistic contributions on the linguistic geography of criollo in Spanish America the Limonese creole speakers of Costa Rica creole language and identity in the Netherlands Antilles and the affinities between Papiamentu and Chinese in Curaçao ethnohistorical examinations of such topics as creole transgression in the Dominican Haitian borderland the Haitian Mandingo and African fundamentalism creolization and identity in West Central Jamaica Afro Nicaraguans and national identity and the Creole heritage of Haiti studies of religion and folk culture including voodoo and creolization in New York City the creolization of the Mami Wata water spirit and signifying processes in New World Anancy tales a group of essays focusing on the thought of Édouard Glissant Maryse Condé and the Creole writers and case studies of artistic expression including creole identities in Caribbean women's writing Port au Prince in the Haitian novel Cynthia McLeod and Astrid Roemer and Surinamese fiction Afro Cuban
