Pierre Bonnard Pierre Bonnard, **Pierre Bonnard** Pierre Bonnard, Nicole R. Myers, Allison Stielau, Metropolitan Museum of Art (New York, N.Y.), 2009 The vibrant late paintings of Pierre Bonnard 1867-1947 are considered by many to be among his finest achievements Working in a small converted bedroom of his villa in the south of France Bonnard suffused his late canvases with radiant Mediterranean light and dazzling color Although his subjects were close at hand usually everyday scenes taken from his immediate surroundings such as the dining room table being set for breakfast or a jug of flowers perched on the mantelpiece Bonnard rarely painted from life Instead he preferred to make pencil sketches in small diaries and then rely on these along with his memory once in the studio This volume which accompanies the first exhibition to focus on the interior and related still life imagery from the last decades of Bonnard's long career presents more than seventy-five paintings drawings and works on paper many of them rarely seen in public and in some cases little known Although Bonnard's legacy may be removed from the succession of trends that today we consider the foundation of modernism his contribution to French art in the early decades of the twentieth century is far more profound than history has generally acknowledged In their insightful essays and catalogue entries the authors bring fresh critical perspectives to the ongoing reappraisal of Bonnard's reputation and to his place within the narrative of twentieth century art Jacket **Pierre Bonnard** Elizabeth Hutton Turner, 2003-05-02 This major presentation of the work of Pierre Bonnard follows a new line of enquiry reconciling what has previously been seen as two distinct early and creative periods the Nabis or symbolist Bonnard and the later so-called Impressionist or colorist Bonnard By uniting representative works from all periods of Bonnard's life this book charts the artist's singular pathway and illustrates his highly independent artistic vision The 130 works illustrated here including paintings drawings prints photographs and sculpture show that Bonnard continually experimented with alternative media

and drew from a range of sources both Eastern and Western The 130 works here illustrated including paintings drawings prints photographs and sculpture show that Bonnard continually experimented with alternative media and drew from a range of sources both Eastern and Western Above all the book demonstrates Bonnard's overriding and lifelong interest in colour Three introductory essays explore diverse aspects of Bonnard's work his aesthetic innovations in light and colour stemming from inventions in photography and film the influence of Japonisme in his early and late work and the critical role played by Bonnard's early formative education in Parisian Lycees The resulting volume which accompanies an exhibition at The Phillips Collection Washington D C and the Denver Art Museum is essential for all lovers of the work of Pierre Bonnard and of great value to students and connoisseurs of the history of European modernism Pierre Bonnard Pierre Bonnard,1978

Drawings, Pierre Bonnard (1867-1947). Pierre Bonnard,1987 **Bonnard** André Fermigier,Pierre Bonnard,1984 Reproductions and text present critical commentary on the artist and his work *Bonnard* Nicholas Watkins,1994 In fact Bonnard began his career as a graphic artist producing posters and illustrations for such magazines as La Revue Blanche Associated with Maurice Denis Edouard Vuillard and other members of the Nabis group from 1890 his early work is characterized by a tendency towards broad flat colour and asymmetrical composition derived from Gauguin and from Japanese prints From 1900 his palette became richer and his subject matter settled into a range of obsessive themes principally landscapes nudes and interiors in which he explored ever more complex formal problems and developed an unparalleled mastery of colour and light His mature work achieves a level of dazzling intensity which has ensured his enduring reputation as one of the twentieth century's great colourists Pierre Bonnard Pierre Bonnard,Smith College. impressionist painters who called themselves the Nabis from the Hebrew word meaning prophet Bonnard Vuillard Roussel and Denis the most distinguished of the Nabis revolutionized the spirit of decorative techniques during one of the richest periods in the history of French painting Influenced by Odilon Redon and Puvis de Chavanne by popular imagery and Japanese etchings this post impressionist group was above all a close circle of friends who shared the same cultural background and interests An increasing individualism in their art often threatened the group s unity and although tied together by a common philosophy their work clearly diverged This publication lets us compare and put into perspective the artists within this fascinating group The works presented in this collection offer a palette of extraordinary poetic expressions candid in Bonnard ornamental and mysterious in Vuillard gently dream like in Denis grim and almost bitter in Vallotton the author shares with us the lives of these artists to the very source of their creative gifts **PIERRE BONNARD** ,1990
