Piers Plowman The A Version Wills Vision:

Piers Plowman: The A version; Will's visions of Piers Plowman and Do-well, edited by G. Kane William Langland,1960 *The Penn Commentary on Piers Plowman, Volume 1* Andrew Galloway,2011-06-07 No detailed description available for The Penn Commentary on Piers Plowman Volume 1 **The Penn Commentary on Piers Plowman, Volume 1, C Prologue-Passus 4 ; B Prologue-Passus 4 ; A Prologue-Passus 4** Andrew Galloway,2006 Inaugurating the first full

commentary of Piers Plowman Galloway s volume treats the poem s first vision from the Prologue through Passus 4 in all three versions accepting the C text as the poet s final world but excavating downward through the earlier B and A texts

Reconstructing Alliterative Verse Ian Cornelius,2017-07-20 The poetry we call alliterative is recorded in English from the seventh century until the sixteenth and includes Caedmon s Hymn Beowulf Sir Gawain and the Green Knight and Piers Plowman These are some of the most admired works of medieval English literature and also among the most enigmatic The formal practice of alliterative poets exceeded the conceptual grasp of medieval literary theory theorists are still playing catch up today This book explains the distinctive nature of alliterative meter explores its differences from subsequent accentual syllabic forms and advances a reformed understanding of medieval English literary history The startling formal variety of Piers Plowman and other Middle English alliterative poems comes into sharper focus when viewed in diachronic perspective the meter was in transition to understand it we need to know where it came from and where it was headed at the moment it died out **Will's Visions of Piers Plowman and Do-well** William Langland,George Kane,1988 Piers Plowman: the B Version ,1975 **An Age of Transition?** Christopher Dyer,2005-02-03 This significant new work by a prominent

medievalist focusses on the period of transition between 1250 and 1550 when the wealth and power of the great lords was threatened and weakened and when new social groups emerged and new methods of production were adopted Professor Dyer examines both the commercial growth of the thirteenth century and the restructuring of farming trade and industry in the fifteenth The subjects investigated include the balance between individuals and the collective interests of families and villages The role of the aristocracy and in particular the gentry are scrutinized and emphasis placed on the initiatives taken by peasants traders and craftsmen The growth in consumption moved the economy in new directions after 1350 and this encouraged investment in productive enterprises A commercial mentality persisted and grew and producers such as farmers profited from the market Many people lived on wages but not enough of them to justify describing the sixteenth century economy as capitalist The conclusions are supported by research in sources not much used before such as wills and non written evidence including buildings Christopher Dyer who has already published on many aspects of this period has produced the first full length study by a single author of the transition He argues for a reassessment of the whole period and shows that many features of the sixteenth seventeenth and eighteenth centuries can be found before 1500 **Imagining**

Inheritance from Chaucer to Shakespeare Alex Davis,2020 In this work Alex Davis explores how inheritance was

imagined between the lifetimes of Chaucer and Shakespeare

The Culture of Food in England, 1200-1500 C. M.

Woolgar,2016-04-26 In this revelatory work of social history C M Woolgar shows that food in late medieval England was far more complex varied and more culturally significant than we imagine today Drawing on a vast range of sources he charts how emerging technologies as well as an influx of new flavors and trends from abroad had an impact on eating habits across the social spectrum From the pauper s bowl to elite tables from early fad diets to the perceived moral superiority of certain foods and from regional folk remedies to luxuries such as lampreys Woolgar illuminates desire necessity daily rituals and pleasure across four centuries *Piers Plowman* William Langland,1988 *Piers Plowman* William Langland

The Medieval Clothier John S. Lee,2018 A clear and accessibly written guide to the medieval cloth making trade in England Cloth making became England s leading industry in the late Middle Ages clothiers co ordinated its different stages in some cases carrying out the processes themselves and found markets for their finished cloth selling to merchants drapers and other traders While many clothiers were of only modest status or jacks of all trades a handful of individuals amassed huge fortunes through the trade becoming the multi millionaires of their day This book offers the first recent survey of this hugely important and significant trade and its practitioners examining the whole range of clothiers across different areas of England and exploring their impact within the industry and in their wider communities Alongside the mechanics of the trade it considers clothiers as entrepreneurs and early capitalists employing workers and even establishing early factories it also looks at their family backgrounds and their roles as patrons of church rebuilding and charitable activities It is completed with extracts from clothiers wills and a gazetteer of places to visit making the book invaluable to academics students and local historians alike JOHN S LEE is a Research Associate at the Centre for Medieval Studies at the University of York *Piers Plowman: The B Version* William Langland,1975 **On Reading the Will** Jeremy

Tambling,2012 On Reading the Will studies the will will power and wilfulness the will to death or the will to power as well as lack of will It surveys many texts from Augustine Shakespeare Dickens Trollope George Eliot and D H Lawrence in order to analyse the history of its different meanings whether these imply rational or irrational drives or the sexual appetite or the testamentary will This last is a particularly interesting form of the will in that it asserts the desire to control and to have an identity beyond death Drawing on philosophies of the will in Schopenhauer and Nietzsche the book studies music as the embodied will in Wagner and Verdi Considering the law and its prohibitions as a form of the will it sees how these produce a perverse will Drawing on Freud and Lacan it studies interrelationships between the law which prohibits and the desire which wills how desire creates the law and the law desire What stands out is that the authors studied are fascinated by the will as unknowable and irresistible as rational and countermanding rationality as divided and imperious Chapters include how wills motivate plots in Shakespeare and the Victorian novel Discussion of opera and Nietzsche focuses on the will as an unconscious force **Indulgences in Late Medieval England** R. N. Swanson,2007-12-13 This book presents a history of

indulgences or pardons in late medieval England *Review of Piers Plowman, the A Version* Jess B. Bessinger, 1961

Reading English Verse in Manuscript c.1350-c.1500 Daniel Sawyer, 2020-05-21 Reading English Verse in Manuscript c 1350 c 1500 is the first book length history of reading for later Middle English poetry While much past work in the history of reading has revolved around marginalia this book consults a wider range of evidence from the weights of books in medieval bindings to relationships between rhyme and syntax It combines literary critical close readings detailed case studies of particular surviving codices and systematic manuscript surveys drawing on continental European traditions of quantitative codicology to demonstrate the variety vitality and formal concerns visible in the reading of verse in this period The small and large scale formal features of poetry affected reading subtly but extensively determining how readers might move through books and even shaping physical books themselves Readers responses to one formal feature rhyme meanwhile evince a habitual but therefore deep rooted formalism which can support and enhance close readings today Reading English Verse in Manuscript sheds fresh light on poets such as Geoffrey Chaucer John Lydgate and Thomas Hoccleve but also shows how their works were read in manuscript in the context of a much larger mass of anonymous poems that influenced canonical poems in a pattern of mutual influence Piers Plowman: The C version: Will's visions of Piers Plowman and Do-well William Langland, 1997 Will's Visions of Piers Plowman, Do-well, Do-better and Do-best William Langland, 1997 This definitive edition of the C Version of Piers Plowman presents the poem in its second uncompleted revision Its base is the text in Huntington Library MS 143 corrected and restored from the evidence of all known manuscripts of the C tradition to that of the first fair copy of the poet s revision materials The correction and restoration are described in an extensive Introduction and there is a full apparatus of variant readings *Piers Plowman: The A version; Will's visions of Piers Plowman and Do-well, edited by G. Kane* William Langland, 1960
