Piety Power And History In Medieval England And Normandy:

Piety, Power and History in Medieval England and Normandy Marjorie Chibnall, 2017-12-15 This title was first published in 2000 The studies here are broadly concerned with ecclesiastical history as envisaged in the work of Orderic Vitalis the history of society and culture comprising the life and activities of lay men and women in war and peace no less than those of monks and clerks with a special emphasis on monasteries in the Anglo Norman world Some enlarge directly on Orderic s work others deal with aspects of the life of the Empress Matilda and with St Anselm and Bec Hellouin The underlying themes in addition to history as written by both monks and secular clerks and its sources in chronicles and charters are piety including the mixed motives of monastic patrons and power in both church and state and the conflicts these engendered It has been said that the history of medieval power is to be sought in its microcosms these studies look closely at some of the microcosms

Piety and Politics in Britain, 14th-15th Centuries John A.F. Thomson, edited by Graeme Small, 2023-04-14 This volume explores a range of topics during a turbulent period in British history with particular emphasis on political change and popular piety On the eve of the Reformation religious beliefs were shaped by a church which was falling under the growing control of the state and by responses to England s one and only heretical movement Lollardy In political life gradual disengagement from a cross Channel political world was followed by civil war and the eventual rise of a strong Tudor monarchy As this volume demonstrates in a number of ways the impact of many of these macro changes was felt across the British Isles not just in England But the studies presented here frequently explore major change through the experience of the middling sort the gentry active in local government the English merchants and Scottish immigrants making important life choices in major cities or the industrious clerics charged with the routine administration of the church By looking at the case studies of these men in more detail we begin to appreciate that even in this age of great change there were profound continuities which carried through into the sixteenth century Along the way too new light is thrown on the authorship date and redaction of texts which continue to shape our understanding of late medieval British history

Medieval Manuscripts in Post-Medieval England Andrew G. Watson, 2023-07-07 Two themes uniting the essays in this collection

are the provenance and history of medieval manuscripts during the Middle Ages and the fates that befell them in England in the period after the invention of printing and the 16th century dissolution of the religious houses and visitations of the universities The section Libraries and collectors includes papers on seven major English collectors of the 16th and 17th centuries and the section Manuscripts concerns the fates of five manuscripts or groups of manuscripts from England Belgium and Italy Of the other chapters one is concerned with the post medieval history of the library of All Souls College Oxford and another with the provenance of hundreds of manuscripts in the Harleian collection in the British Library For this volume Andrew Watson has provided extensive additional notes and indexes

Ideology and Royal Power in Medieval France William Chester Jordan, 2024-10-28 Ideology and Royal Power is a collection of essays describing and assessing the ways in which royal publicists in medieval France conceived the authority of the crown especially with regard to protecting and defending its Christian subjects from their alleged enemies at home and abroad corrupt officials Jews particularly moneylenders heretics and Muslims A number of the essays also describe the execution of royal policies with respect to these groups and evaluate their impact both in terms of the groups affected and their influence on further developments in royal ideology A key figure is that of Louis IX Saint Louis r 1226 1270

Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011, **The Dependent Pories of Medieval English Monasteries** Martin Heale, 2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated

BOOK JACKET **Towns and Local Communities in Medieval and Early Modern England** David M. Palliser, 2024-10-28 Professor Palliser focuses here on towns in England in the centuries between the Norman Conquest and the Tudor period on which he is an acknowledged authority Urban topography archaeology economy society and politics are all brought under review and particular attention is given to relationships between towns and the Crown to the evidence for migration into towns and to the vexed question of urban fortunes in the 15th and 16th centuries Two essays set urban history in a broader framework by considering recent work on town and village formation and on the development of parishes The collection includes two hitherto unpublished studies and is introduced and put in context by a new survey of English towns from the 7th to the 16th centuries

Land and People

in Late Medieval England Bruce M.S. Campbell,2024-10-28 This is the third collection of articles by Bruce Campbell to appear in the Variorum series Late medieval England was an overwhelmingly rural society Never since has such a large proportion of the population lived in the countryside or relied so directly for its livelihood upon agriculture The lot of a majority of that population was always a hard one and never more so than during the first half of the 14th century when peasants competed with each other for ever scarcer land and work and a succession of major harvest failures jeopardised the survival of many Nevertheless experience varied considerably both during this era of mounting population pressure and the century and more of population decline and stagnation that followed the demographic disaster of the Black Death How well individual communities coped during these contrasting conditions of expansion and contraction owed much to the quality and composition of their natural resource endowment a good deal to their ability to take advantage of changing commercial opportunities and sometimes almost everything to how exposed they were to military conflict Always however much hinged upon how the twin feudal institutions of lordship and serfdom were mapped onto land and people via the manorial system These are the themes variously explored by the eight essays assembled in this volume which range from a case study of a single crowded Norfolk manor to a consideration of the broad and towards the end of the Middle Ages widening contrasts that persisted between North and South **Hybridity, Identity, and Monstrosity in Medieval Britain** J.

Cohen,2016-04-30 This study examines the monsters that haunt twelfth century British texts arguing that in these strange bodies are expressed fears and fantasies about community identity and race during the period Cohen finds the origins of these monsters in a contemporary obsession with blood both the literal and metaphorical kind **Women Medievalists**

and the Academy, Volume 2 Jane Chance,2018-05-22 Long overlooked in standard reference works pioneering women medievalists finally receive their due in Women Medievalists and the Academy This comprehensive edited volume brings to life a diverse collection of inspiring figures through memoirs biographical essays and interviews Covering many different nationalities and academic disciplines including literature philology history archaeology art history theology or religious studies and philosophy each essay delves into one woman's life intellectual contributions and efforts to succeed in a male dominated field Together these extraordinary personal histories constitute a new standard reference that speaks to a growing interest in women's roles in the development of scholarship and the academy The collection begins in the eighteenth century with Elizabeth Elstob and continues to the present and includes among more than seventy profiles such important figures as Anna Jameson Lina Eckenstein Georgiana Goddard King Eileen Power Dorothy L Sayers Dorothy Whitelock Susan Mosher Stuard Marcia Colish and Caroline Walker Bynum among others Women Medievalists and the Academy Jane Chance,2005 Pioneering An important and timely collection that profiles the lives and professional careers of women medievalists in the last centuries Maureen Mazzaoui University of Wisconsin Madison **Mercenaries** Sarah

Percy,2007-10-11 The main aim of this book is to argue that the use of private force by states has been restricted by a norm

against mercenary use The book traces the evolution of this norm from mercenaries in medieval Europe through to private security companies in modern day Iraq telling a story about how the mercenaries of yesterday have evolved into those of today in the process The norm against mercenaries has two components First mercenaries are considered to be immoral because they use force outside legitimate authoritative control Second mercenaries are considered to be morally problematic because they fight wars for selfish financial reasons as opposed to fighting for some kind of larger conception of the common good The book examines four puzzles about mercenary use and argues that they can only be explained by understanding the norm against mercenaries First the book argues that moral disapproval of mercenaries led to the disappearance of independent mercenaries from medieval Europe Second the transition from armies composed of mercenaries to citizen armies in the nineteenth century can only be understood with attention to the norm against mercenaries Third it is impossible to understand why international law regarding mercenaries created in the 1970s and 1980s is so ineffective without understanding the norm Finally the disappearance of companies like Executive Outcomes and Sandline and the development of today's private security industry cannot be understood without the norm This book is a project of the Oxford Leverhulme Programme on the Changing Character of War New Research on the Abbey of Le Bec in the Middle Ages, 2024-07-08 This volume combines the results of recent excavations at Le Bec with fresh studies of documentary sources breaking new ground in research on the organization of the monastic site and the cultural life of the community By examining the abbey's prosperity in terms of its relations with its priories and its dealings with the powerful especially its noble benefactors and the rulers of Normandy this volume thus explains the unique importance of the abbey in the history of not only medieval Normandy but also the Anglo Norman world more broadly Contributors are Pierre Bauduin Michaël Bloche Grégory Combalbert Fabrice Delivré Gilles Deshayes Jean Hervé Foulon Véronique Gazeau Lindy Grant Judith A Green Fabien Paquet and Julie Potter *Word, Image and Experience* Giselle de Nie, 2023-07-07 Focusing on the works of bishop Gregory of Tours 539-594 and the poet hagiographer Venantius Fortunatus 540 c. 604 in later life bishop of Poitiers Dr de Nie gives in these innovative studies a new understanding of the miracle stories around which much of their writing revolves but whose bizarre dynamics appear to defy sense which has often resulted in their dismissal as useless to the historian These authors' perceptions of miracles and their renderings of the human self awareness through which miracles are perceived and happen are analysed as attempts mostly rooted in models from the Bible to adjust the early Christian tradition so as to make sense of and protect themselves in the highly insecure environment of 6th century Frankish Gaul Drawing on modern anthropological and psychological studies notably in the area of spiritual healing practices as well as on philosophical and theological reflections about verbal and mental imagery she demonstrates how these can be used to throw fresh light on late antique society and its spirituality exploring views of mind affectivity body sensory phenomena symbols and the perception of women as well as of the qualities of images verbal language and texts The volume includes five essays not previously published in

cults in Perugia This book focuses upon particular thirteenth century revivals and popular crusades but does so in order to illuminate the nature of medieval western religious enthusiasm by exploring such topics as crowds penitential self laceration charismatic leaders prophecy runaway youths popular crusading fervour dreams and sanctity male and female A previously unpublished essay introduces the book initiating a discussion of religious enthusiasm in the medieval West and the second conversion of Europe
