Political Mythology And Popular Fiction

Jack Salzman

Political Mythology And Popular Fiction:

Political Mythology and Popular Fiction Ernest J. Yanarella, Lee Sigelman, 1988-01-13 A fascinating contribution to the scholarship of both political science and literature this book explores eight major genres of contemporary popular fiction generally assumed to be essentially devoid of political content children's novels Westerns middle class fiction historical novels small town Americana sports novels American war fiction and science fiction By uncovering the often covert mythical themes and cultural symbols hidden in the plot formulas of these works many of them bestsellers the essays illustrate the debt of mass market authors to cultural and political traditions that reach back to the origins of the American Republic

Political Myth Christopher Flood, 2013-12-02 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company **Minor Mythologies as Popular Literature** Richard Pine, 2018-10-01 This is the first single author study of the genres and roots of popular literature in its relation to film and television exploring the effects of academic snobbery on the teaching of popular literature Designed for classroom use by students of literature and film and their teachers it offers case studies in quest literature detective fiction the status of the outlaw and outsider and the interdependence of self other and the uncanny It challenges perceived notions of and prejudices against popular literature and affirms its connection with the deepest human experiences **The Presence of the Past in Children's Literature**

Ann Lucas, 2003-09-30 Time is one of the most prominent themes in the relatively young genre of children's literature for the young like adults want to know about the past This book explores how children's writers have treated the theme and concept of time The volume starts with the application of literary theory and additionally analyzes examples of the juvenile historical novel In doing so it also examines changing fashions in criticism and publishing and the pressure they exert on writers It then considers literary adaptations of myths and archetypes constructions of history in children's literature colonial and postcolonial children's fiction and the treatment of the past in the postmodern era The book looks at literature from around the world and the expert contributors are from diverse countries and backgrounds While the book looks primarily at literature of the 19th and 20th centuries it considers a broad range of historical material treated in works from that period Included are discussions of such topics as Joan of Arc in children's literature the legacy of Robinson Crusoe colonial and postcolonial children's literature the Holocaust and the supernatural International in scope the volume examines history and collective memory in Portuguese children's fiction Australian history in picture books Norwegian children's literature and literary treatments of the great Irish famine **The Myth of the Clash of Civilizations** Chiara Bottici, Benoît

Challand, 2013-01-11 While globalization unifies the world divisions re emerge within it in the form of a spectacular separation between Islam and the West How can it be that Huntington's contested idea of a clash of civilizations became such a powerful political myth through which so many people look at the world Bottici and Challand disentangle such a process of myth making both in the West and in Muslim majority countries and call for a renewed critical attitude towards it

By analysing a process of elaboration of this myth that took place in academic books arts and media comics and Hollywood films they show that the clash of civilizations has become a cognitive scheme through which people look at the world a practical image on the basis of which they act on it as well as a drama which mobilizes passions and emotions Written in a concise and accessible way this book is a timely and valuable contribution to the academic literature and more generally to the public debate As such it will be an important reference for scholars and students of political science sociology philosophy cultural studies Middle Eastern politics and Islam

American Studies Jack Salzman,1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology

Geography of Time, Place, Movement and Networks, Volume 1 Stanley D. Brunn,2024-05-23 This book describes the journey concept relating to cultural and social history of Western and non Western worlds By including time journeys negotiated by women racial minorities artists and scholars from the humanities and social natural and physical scientists the book explores time space journeys in personal professional and cultural life and place experiences The sixteen chapters in this book offer new insights into time place worlds in different contexts including history culture astronomy and science fiction The concept is one where science and art worlds intersect in the emerging worlds of the unknown With contributors from different disciplines and countries expanding our understanding of this concept this volume provides a valuable source for disciplinary and interdisciplinary classes and seminars exploring these scholarly frontiers

Literature For Children Peter Hunt,2003-09-02 Children s literature has recently produced a body of criticism with a highly distinctive voice The book consolidates understanding of this area by including some of the most important essays published in the field in the last five years demonstrating the links between literary criticism education psychology history and scientific theory It includes Peter Hollindale s award winning essay on Ideology and Children s Literature topics from metafiction and post modernism to fractal geometry and the examination of texts ranging from picture books to The Wizard of Oz and the the Australian classic Midnite Sources are as disparate as Signal and the Children s Literature Association Quarterly and the international community is represented by writers from Britain the USA Canada Australia and Germany Each essay is set in its critical context by extensive quotation from authoritative articles

Aspects and Issues in the History of Children's Literature Maria Nikolajeva,1995-06-13 The contributors to this collection of essays address children s literature as an art form rather than an educational instrument as has been the traditional approach Scholars from 10 different countries present a variety of approaches to the history of children s literature including views on sociological semiotic and intertextual models of its evolution Other issues explored include influence and interaction between stories and their countries of origin This strong presentation of international perspectives on children s literature will be a valuable

resource for scholars of children's and comparative literature

Maps of Heaven, Maps of Hell Edward

Ingebretsen, 2016-09-16 From its beginnings in Puritan sermonising to its prominent place in contemporary genre film and fiction this book traces the use of terror in the American popular imagination Entering American culture partly by way of religious sanction it remains an important heart and mind shaping tool

The Politics of Serial Television Fiction

Sebastian Naumann, 2025-03-18 Fictional TV politics played a pivotal role in the popular imaginaries of the 2010s across cultures Examining this curious phenomenon Sebastian Naumann provides a wide ranging analysis of the rapidly evolving landscape of contemporary polit series Proposing a novel structural model of serial television he offers an innovative methodological framework for comparative textual analysis that integrates sociocultural economic sociotechnical narratological and aesthetic perspectives This study furthermore explores how the changing affordances of nonlinear television impact serial storytelling and identifies key narrative trends and recurring themes in contemporary TV polit fiction

American Foreign Policy and the Utopian Imagination Susan M. Matarese, 2010-03-02 With the collapse of the Soviet Union and the end of the Cold War American decision makers have been forced to confront anew questions about the role of the United States in world affairs What are the responsibilities of the United States toward other countries What are the appropriate uses and limitation of American power And what from an American point of view would be the ideal shape of the imagined New World Order However U S policymakers may resolve such issues their thinking will be influenced by assumptions deeply embedded in American culture Some of those beliefs derive from the nation's distinctive history geography and resources But others are rooted in what Susan M Matarese calls the national image a set of emotionally charged relatively coherent ideas about the special qualities of the United States and its place in the world Building on a long tradition of scholarship that looks to works of literature for insights into national myths and symbols Matarese examines a rich trove of utopian fiction written by Americans during the late nineteenth century Such writings she shows provide a useful window into the popular imagination revealing widely shared notions about the foreign policy of an idealized America notions that have proven remarkably resilient in the twentieth century as well Indeed even in the post Cold War era one can find striking similarities between the foreign policy goals of the Bush and Clinton administrations and the dreams of America's utopian architects a century earlier The author concludes with an appeal for greater humility and realism in the formation of U S foreign policy and a recognition of the limits of American power in what is likely to be an increasingly fluid fragmented and multipolar world

J.R.R. Tolkien Peter Hunt, 2013-10-01 J R R Tolkien is arguably the most influential and popular of

all fantasy writers Although his position and status have long been controversial his popularity has not faded His best loved works *The Hobbit* and *The Lord of the Rings* have sold millions of copies around the world and continue to enthral readers young and old This lively collection of original essays examines *The Hobbit* and *The Lord of the Rings* in the light of children's literature theory and approaches as well as from adult and fantasy literature perspectives Exploring issues such as gender

language worldbuilding and ecocriticism the volume also places Tolkien's works in the context of a range of visual media including Peter Jackson's film adaptations

Myth and Ideology in Contemporary Brazilian Fiction Daphne Patai, 1983

Analyzing the thematic and formal characteristics of six contemporary Brazilian novels this study explores the use of myth and its ideological implications The writers examined are Maria Alice Barroso Clarice Lispector Jorge Amado Carlos Heitor Cony Adonias Filho and Autran Dourado

The Pirate Myth Amedeo Policante, 2015-01-09

The image of the pirate is at once spectral and ubiquitous It haunts the imagination of international legal scholars diplomats and statesmen involved in the war on terror It returns in the headlines of international newspapers as an untimely security threat It materializes on the most provincial cinematic screen and the most acclaimed works of fiction It casts its shadow over the liquid spatiality of the Net where cyber activists file sharers and a large part of the global youth are condemned as pirates often embracing that definition with pride rather than resentment Today the pirate remains a powerful political icon embodying at once the persistent nightmare of an anomic wilderness at the fringe of civilization and the fantasy of a possible anarchic freedom beyond the rigid norms of the state and of the market And yet what are the origins of this persistent pirate myth in the Western political imagination Can we trace the historical trajectory that has charged this ambiguous figure with the emotional political and imaginary tensions that continue to characterize it What can we learn from the history of piracy and the ways in which it intertwines with the history of imperialism and international trade Drawing on international law political theory and popular literature The Pirate Myth offers an authoritative genealogy of this immortal political and cultural icon showing that the history of piracy the different ways in which pirates have been used outlawed and suppressed by the major global powers but also fantasized imagined and romanticised by popular culture can shed unexpected light on the different forms of violence that remain at the basis of our contemporary global order

Gore Vidal and Antiquity Quentin

Broughall, 2022-08-01 This book examines Gore Vidal's lifelong engagement with the ancient world Incorporating material from his novels essays screenplays and plays it argues that his interaction with antiquity was central to the way in which he viewed himself his writing and his world Divided between the three primary subjects of his writing sex politics and religion this book traces the lengthy dialogue between Vidal and antiquity over the course of his sixty year career Broughall analyses Vidal's portrayals of the ancient past in novels such as Julian 1964 Creation 1981 and Live from Golgotha 1992 He also shows how classical literature inspired Vidal's other fiction such as The City and the Pillar 1948 Myra Breckinridge 1968 and his Narratives of Empire 1967 2000 novels Beyond his fiction Broughall examines the ways in which antiquity influenced Vidal's careers as a playwright an essayist and a satirist and evaluates the influence of classical authors and their works upon him Of interest to students and scholars in classical studies reception studies American politics and literature and the work of Gore Vidal this volume presents an original perspective on one of the most provocative writers and intellectuals in post war American letters It offers new insights into Vidal's attitudes influences and beliefs and throws fresh light upon his patrician

self fashioning and his mercurial output Eric Voegelin's Dialogue with the Postmoderns Eric Voegelin, 2004 This collection of essays endeavors to generate a dialogue between Eric Voegelin and other prominent twentieth century thinkers and explore some of the more perplexing issues in contemporary political theory Each essay rests on the underlying question is it possible or desirable to construct or discover political foundations without resorting to metaphysical or essentialist constructs The introduction focuses on the two nineteenth century thinkers Nietzsche and Husserl who have framed the debate about modernity and postmodernity thereafter the book examines Voegelin's ideas as compared to those of other twentieth century thinkers Discussed within the volume are Levinas and the precedence of ethics Ricoeur's theory of narrative representation Deleuze and the philosophy of immanence Voegelin's relationship to a speech dimension theory of human behavior and Patocka's theory of pre metaphysical transcendence in Socrates What will impress scholars most about this collection is the provocative dialogue created between Voegelin and other major thinkers of postmodernism that addresses the issue of establishing foundations without foundationalism **The Cumulative Book Index**, 1996 A world list of books in the English language **Bardic Nationalism** Katie Trumpener, 1997-05-25 This magisterial work links the literary and intellectual history of England Scotland Ireland and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism the lineages of the novel and the literary history of the English speaking world Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of formal experimentation and political engagement between its eighteenth century rise and its Victorian heyday During the late eighteenth century antiquaries in Ireland Scotland and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation Responding in particular to Enlightenment dismissals of Gaelic oral traditions they reconceived national and literary history under the sign of the bard Their pathbreaking models of national and literary history their new way of reading national landscapes and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia **Re-writing America** Philip D. Beidler, 1991 With his first book *American Literature and the Experience of Vietnam* Philip Beidler offered a pioneering study of the novels plays poetry and literature of witness that sprang from the United States involvement in the Vietnam War Reviewing the book the journal *American Literature* declared It is more than just an introductory act It also sets forth what are sure to be lasting types of American literary response to Vietnam and of the scholarly response to the emerging literature of the war In *Re Writing*

America Beidler charts the ongoing achievements of the men and women who first gained public notice as Vietnam authors and who are now recognized as major literary interpreters of our national life and culture at large These writers among them Tim O'Brien Philip Caputo Winston Groom David Rabe John Balaban Robert Stone Michael Herr Gloria Emerson and Frances Fitzgerald have applied in their later efforts says Beidler many of the hard won lessons of literary sense making learned in initial works attempting to come explicitly to terms with Vietnam Beidler argues that the Vietnam authors have done much to reenergize American creative writing and to lead it out of the poststructuralist impasse of texts as endless critiques of language representation and authority With their direct experience of a divisive and frustrating war a war not of their own making but of the making of politicians and experts a war of ancient animosities that cost nearly everything for those involved and settled virtually nothing these writers in many ways resemble the celebrated generation of poets and novelists who emerged from World War I Like their forebears of 1914-18 those of the Vietnam generation have undertaken a common project of cultural revision to re-write America to create an art that even as it continues to acknowledge the war's painful memory projects that memory into new dimensions of mythic consciousness for other and better times Beidler fills his book with detailed illuminating analyses of the writers' works which as he notes have moved across an almost infinite range of subject genre and mode From David Rabe for example have come innovative plays in which overt statements on the traumas of Vietnam The Basic Training of Pavlo Hummel Streamers have made way for broader commentaries on sex power and violence in American life In the Boom Boom Room HurlyBurly Winston Groom has moved from Better Times Than These a rather traditional even anachronistic war novel to further reaches of rambunctious humor in Forrest Gump And journalist Michael Herr whose Dispatches memorably defined a Vietnam landscape at once real and hallucinatory carried his vision into collaborations on the films Apocalypse Now and Full Metal Jacket As Beidler notes the immense price that Vietnam exacted from the American soul continues to draw a plethora of interpretations and depictions Vietnam authors remind us in Tim O'Brien's words of the things they carried But as Beidler makes clear they now command us not only to remember but to imagine new possibilities as well

Whispering the Techniques of Language: An Emotional Quest through **Political Mythology And Popular Fiction**

In a digitally-driven world wherever monitors reign great and immediate communication drowns out the subtleties of language, the profound techniques and mental nuances hidden within words frequently move unheard. However, nestled within the pages of **Political Mythology And Popular Fiction** a interesting literary treasure blinking with natural thoughts, lies an exceptional journey waiting to be undertaken.
