Keeping the Promise Dennis Carlson, C. P. Gause, 2007 Textbook

Ideating Pedagogy in Troubled Times Shalin Lena Raye, Stephanie Masta, Sarah Taylor Cook, Jake Burdick, 2019-10-01

We began the call for this book by asking authors to ideate on activism to take up and seek to extend the interbraided values from the Curriculum and Pedagogy group's espoused mission and vision collocating activist ideologies theoretical traditions and practical orientations as a means of creatively reflectively and productively responding to the increasingly dire social moment This moment is framed by a landscape denigrated beyond even Pinar's 2004 original declaration of the present as nightmare The current catastrophic political climate provides challenges and albeit scant opportunities for curriculum scholars and workers as we reflect on past and future directions of our field and grapple with our locations and roles as educators researchers practitioners and beings in the world These troubled times force us to think critically about our scholarship and pedagogy our influence on educational practices in multiple registers and the surrounding communities we claim to serve This is where the call began from a desire to think through modern conceptions regarding what counts as activism in the fields of education curriculum and pedagogy and to consider how activist voices and enactments might emerge differently through curriculum and pedagogy writ large A guiding source of inspiration for this book weaving among the emerging themes between the collected manuscripts reflections and poems was a passage in Sara Ahmed's 2013 book *The Cultural Politics of Emotion* In this passage Ahmed works through the complicated relationship between the testimonies of pain that injustice causes the recognition of this pain and the potential of these wounds to move us into a different relationship with healing p 200 The chapters reflections and poems within this volume thus effect a collective ideation on how specific cultural politics and deleterious ideological formations racism

colonialism homophobia ableism to name only a few persist and mobilize The authors seek to expose and name some of these injustices asking readers not only see and hear these experiences but to inhabit our complicities in their promulgation It is important to acknowledge that these named social troubles do not exist in isolation and will enmesh weave wind and entangle with one another The section headings parallel Ahmed s 2013 own ideations testimony recognition and wounds not as a formula to follow as an activist call or as a model for a means to a more just end but as a way to engage in these issues as a trope of activist confrontation of readers who are as many of our authors suggest complicit in maintaining many of these social troubles The chapters do not need to be read in any particular order though the ordering of the chapters moves from the naming of social troubles to showing how teaching research and theory ask us to take a more active role in recognizing and acknowledging the prevalence of these issues and then theorizing ways to engage the wounds Handbook of Critical Education Research Michelle D. Young, Sarah Diem, 2023-07-25 This handbook offers a contemporary and comprehensive review of critical research theory and methodology Showcasing the work of contemporary critical researchers who are harnessing and building on a variety of methodological tools this volume extends beyond qualitative methodology to also include critical quantitative and mixed methods approaches to research The critical scholars contributing to this volume are influenced by a diverse range of education disciplines and represent multiple countries and methodological backgrounds making the handbook an essential resource for anyone doing critical scholarship The book moves from the theoretical to the specific examining various paradigms for engaging in critical scholarship various methodologies for doing critical research and the political ethical and practical issues that arise when working as a critical scholar In addition to mapping the field contributions synthesize literature offer concrete examples and explore relevant contexts histories assumptions and current practices ultimately fostering generative thinking that contributes to future methodological and theoretical breakthroughs New as well as seasoned critical scholars will find within these pages exciting new ideas challenging questions and insights that spur the continuous evolution and grow the influence of critical research methods and theories in the education and human disciplines The Wiley Handbook of Family, School, and Community Relationships in Education Steven B. Theory and Educational Research Jean Anyon, 2008-08-18 Throughout U S history education policies practices and politics have been described and tested to yield empirical data often with little attempt to place findings in a larger theoretical infrastructure that could provide them with increased explanatory critical or even liberatory power This collection fills that void by taking the point of view that neither research nor theory alone is adequate to the task of social explanation Instead Jean Anyon and her collaborators argue that they imbricate and instantiate one another forming and informing each other as the inquiry process unfolds *Queer Inclusion in Teacher Education* Olivia J.
