Branson, 2025-09-02 Meet the bold the brilliant and the blundering Washington's Lieutenants tells the untold story of the generals who won and lost the Revolutionary War As commander in chief of the Continental Army George Washington developed the strategy that won the Revolutionary War but while Washington directed some battles his strategy for the most part was carried out and most battles were won or lost by his subordinates major and brigadier generals of varying background experience and ability In the spirit of the best military history and biography Washington's Lieutenants tells the story of the generals who served under Washington from 1775 to 1781 Based on extensive research in a variety of sources

the book finds the brigadier generals a laudable group of commanders Hugh Mercer for instance played a pivotal role in the surprise crossing of the Delaware in December 1776 and was bayoneted during the Battle of Princeton a week later Clergyman turned soldier Peter Muhlenberg led a Virginia Line brigade at Brandywine Germantown Monmouth and Yorktown A quarter of all brigadiers died in the service of the new nation Although some stood out for their military skill battlefield bravery and loyalty to Washington the major generals as a whole were disappointing marked by the pursuit of their own military and political ambitions and by a penchant for infighting and bickering Only three served for the war s duration including the great Nathanael Greene and Henry Knox Ten resigned Benedict Arnold turned coat At least three were involved in the so called Conway Cabal of 1777 78 to oust General Washington In the southern theater Robert Howe womanized argued with local leaders to the point of dueling and ultimately botched the defense of Savannah The controversial Horatio Gates self proclaimed victor of Saratoga was accused of cowardice at the Battle of Camden South Carolina At once entertaining reading about some of the Revolutionary War s most colorful military commanders and an insightful analysis of how the young nation fought for its independence Washington s Lieutenants will be essential reading during the war s 250th anniversary and beyond

Harrison, 2011 James R Harrison investigates the collision between Paul s eschatological gospel and the Julio Claudian conception of rule The ruler s propaganda with its claim about the eternal rule of the imperial house over its subjects embodied in idolatry of power that conflicted with Paul s proclamation of the reign of the risen Son of God over his world This ideological conflict is examined in 1 and 2 Thessalonians and in Romans exploring how Paul s eschatology intersected with the imperial cult in the Greek East and in the Latin West A wide selection of evidence literary documentary numismatic iconographic archeological unveils the symbolic universe of the Julio Claudian rulers This construction of social and cosmic reality stood at odds with the eschatological denouement of world history which in Paul s view culminated in the arrival of God s new creation upon Christ s return as Lord of all Paul exalted the Body of Christ over Nero s body of state transferring to the risen and ascended Jesus many of the ruler s titles and to the Body of Christ many of the ruler s functions Thus for Paul Christ s reign challenged the values of Roman society and transformed its hierarchical social relations through the Spirit

**Games vs. Hardware. The History of PC video games** Bogdan Ion Purcaru, 2014-03-13 My two biggest passions concerning computers are hardware and gaming I wrote this book because I don t want that important pieces of history regarding computer hardware games and in a smaller amount the 80 s operating systems to be forgotten and lost I want everyone to appreciate the hardware and software industry and especially the people behind them as they worked many days and nights to deliver us fast and advanced computers and entertaining and complex games

**Paul and the Conflict of Cultures** E. A. Judge, 2019-10-09 The catastrophes of the twentieth century have

decisively broken the grip of Aristotle's fixed universe on our minds. Society is no longer the logical category of statecraft that is to determine our lives. The glorious horrors of fascism discredited the survival of the fittest, upstaged even by the compulsory class equality of the Soviets. Instead we now appeal to culture and mutual communication as we hope to grow together in response to each other. The universe itself at last is open-ended. Particle physics and the genetic code ensure diversity for us all. Our individual gifts will reveal our identity and our mission in life. We are indeed personally answerable for the choices we make. The twenty-first century's great leap forward is Jerusalem's long foreshadowed answer to Athens. Not logic but experiment has been the mainspring that has unlocked it. The transformed life of the apostle Paul in Christ first experienced the developmental prospect that has inspired the cultural reformation of our time.

**The Making of Strategy** Williamson Murray, 1996-05-31. Most writing about strategy has focused on individual strategic theorists or great military leaders. This book focuses instead on the messy processes by which rulers and states have framed strategy in the past, a subject of vital practical importance to strategists and of great interest to students of strategy and statecraft. It consists of 17 case studies that range from fifth-century Athens and Ming China to Hitler's Germany, Israel, and the post-1945 United States. The studies analyse within a common interpretive framework precisely how rulers and states have made strategy. The introduction emphasises the constants in the rapidly shifting world of the strategist; the concluding essay tries to understand the forces that have driven the transformation of strategy since 400 BC and seem likely to continue to transform it in the future.

Uneasy Ethics Simon Lee, 2011-12-31. Professor Simon Lee explores five acute moral dilemmas of the new millennium, each of which has caused unease among liberals and conservatives alike. His

variation on the old adage that hard cases make bad law is to say that hard cases make for an easy ethics. If you do not feel uneasy about your answer then you have not understood the questions posed by a series of dilemmas. First he unravels the moral thinking behind opposing views of the case of the Siamese twins which attracted worldwide attention in the summer and autumn of 2000 showing how the Archbishop of Westminster argued on ethical principles while the judges responded by using hypothetical hard cases. Second he explores sharply conflicting reactions to the release in the summer of 2001 of the child killers of the little boy James Bulger asking how he find space for atonement. Third he traces the moral dilemmas within the stop start Northern Irish peace process which has seen so many twists and turns in the past couple of years. Fourth he examines the ethics of business and government behaviour in the year of collapses from rural industry to Railtrack. Finally he offers one of the first considered ethical analyses of contrasting responses to the terror attacks in the USA on 11

September 2001. Ranging across philosophy, law and theology this analysis of hard cases and an easy ethics culminates in a novel interpretation of politics elusive Third Way.
