The Knowledge Drive Edward J. Bardon,2008-08 The Knowledge Drive is an optimistic book that demonstrates how new more accurate information conveys survival value and inevitably supplants our dysfunctional mythological beliefs Before there was time for the accumulation of knowledge early man created legends and religious myths to understand the world and ease the paralyzing awareness of his own mortality and the fear of natural forces beyond his control We are increasingly aware of how these magical beliefs can lead to divisive religious practices violence and mans continuing inhumanity to fellow man Change is clearly needed Now rapid advances in many fields are giving us the techniques to modify our evolution and curtail our virulence We can establish a more universal equitable morality based on more accurate intelligence about our origins and place in the universe Nevertheless it is up to us as a species to choose our own future directions We are thus in charge of our own destiny a threatening thought to many No prayers or appeals to magical forces will help Dr Bardon analyzes how our quest for knowledge is a basic human drive similar to the sex and nourishment drives It arises from our survival instinct and is not

based on moral or altruistic factors Along with establishing knowledge as a source of power the author discusses the Knowledge Drive from many other perspectives its various motivations the fact that it can be used for many purposes even destructive ones how it learns from adversity how it often exacerbates inequality and how it does not solve social problems unless given the necessary direction Dr Bardon looks at the multiple forces aligned against our efforts to obtain more reliable information He shows how the Knowledge Drive not only triumphs over but also learns from these negative elements Warnings about the fragility of our search for knowledge are misguided it is rather the people mired in mythology who are vulnerable and need our compassion *Practicing Pilgrimage* Brett Webb-Mitchell,2016-11-09 Practicing Pilgrimage On Being and Becoming God s Pilgrim People explores both the theological cultural and spiritual roots of Christian pilgrimage and is a how to book on doing pilgrimage in our suburban backyards city streets rural roads churches retreat centers and our everyday life Brett Webb Mitchell takes the ancient practice of Christian pilgrimage and applies it to our contemporary lives

Good News for Moderns Nero James Pruitt,2015-06-27 There are many ways to be a Christian In Good News for Moderns author Nero James Pruitt shows that within the pages of the New Testament there is room for a diversity of Christianities This is a diversity that is not talked about often but when properly understood expands the perception of what a Christian is Consider the words of Justin Martyr the second century Christian writer recognized as a saint by the Catholic Church the Anglicans and the Eastern Orthodox in about 150 AD We are taught that Christ is the first born of God and we have shown that He is the reason word of whom the whole human race partake And those who live according to reason are Christians even though they are counted atheists Such were Socrates and Heraclitus among the Greeks and those like them Consider the words of John Adams the second President of the United States in 1816 The Ten Commandments and the Sermon on the Mount contain my religion Consider the words Bill Clinton the forty second President of the United States In 1955 I had absorbed enough of my churchs teachings to know that I was a sinner and to want Jesus to save me Finally consider the words of the writer of the small New Testament Book of III John Whoever does good is from God Good News for Moderns is based on Pruitts reading of the scriptures and over one hundred authors of various points of view In our busy time it is brief slightly more than one hundred thousand words supplemented by slightly less than one hundred thousand words of end notes It recognizes that human life moves by fast in what seems like an infinity of time and space and the book closes this way By listing many who have come before us and the immensity of time and space I have underscored the brevity of our lives because as a Psalmist taught recognizing our own mortality is the path to wisdom *Heaven Wants to be Heard* Dudley Plunkett,1997 **In the Name of Education** Jonas E. Alexis,2007 Alexis convincingly examines the crisis in education from a Christian perspective Social Issues **Matriarchs of the Messiah: 2nd Edition** Jo Ann Skousen,2023-02-14 The God of Abraham Isaac and Jacob is also the God of Sarah Rebecca and Leah In this fascinating book renowned scholar Jo Ann Skousen shines light on Christ s maternal ancestors including the reformed harlot Rahab the kind and loyal Moabite Ruth

and the beautiful Bathsheba Filled with insights that still apply today this is a must read for followers of the Holy Bible

Kevin Macdonald's Metaphysical Failure: a Philosophical, Historical, and Moral Critique of Evolutionary Psychology, Sociobiology, and Identity Politics Jonas E. Alexis, 2022-04-25 In Kevin MacDonald's Metaphysical Failure Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald's thought in particular MacDonald's belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's Metaphysical Failure presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor

Doubting Thomas? Mark A. Beliles, Jerry Newcombe, 2014-10-21 A religious historian argues that historical revisionism has distorted the religious views of Thomas Jefferson making him appear far more skeptical than he was Thomas Jefferson and the founding fathers intended a strict separation of church and state right He would have been very upset to find out about a child praying in a public school or a government building used for religious purposes correct Actually the history on this has been very distorted The standard accepted story on the faith of Thomas Jefferson or the lack thereof is not accurate While he did harbor some doubts about orthodox Christianity by the end of his life he was actually quite active in supporting the church in America Meanwhile in his name today because of a misunderstanding about the separation of church and state a phrase that comes from an obscure letter he wrote religious expression is being curtailed all over the place in modern America And he would absolutely object to that as seen in his own actions and writings While Jefferson may seem to be the patron saint of the ACLU his words and actions showed that he would totally disagree with the idea of driving God out of the public square Doubting Thomas documents that In short it's time to set the record straight
